EDUCATION

- Ph.D. University of Cambridge, 2009
Thesis: "Efficient Correction Interfaces for Speech Recognition"
Advisor: Sir David J.C. MacKay FRS
- M.Phil. University of Cambridge, Computer Speech, Text and Internet Technology, 2004
Thesis: "Efficient Computer Interfaces Using Continuous Gestures, Language Models, and Speech"
Advisors: Sir David J.C. MacKay FRS and Steve Young FEng
- M.S. Oregon State University, Computer Science, 1999
Thesis: "A Parallel Implementation of a Fluid Flow Simulation using Smoothed Particle Hydrodynamics"
Advisor: Michael Quinn
- B.A. University of Minnesota, Morris, double major: Computer Science (honors) and Math, 1997
Undergraduate research project: "Scheduling Problems in a Practical Allocation Model"
Advisor: Dian Lopez

PROFESSIONAL EXPERIENCE

Associate Professor, Michigan Technological University	2019-present
Assistant Professor, Michigan Technological University	2015-2019
Associate Professor, Montana Tech	2014-2015
Assistant Professor, Montana Tech	2011-2014
Lecturer, Princeton University	2010-2011
Postdoctoral Research Associate, University of Cambridge	2009-2010
Instructor, Oregon State University	1999
Teaching Assistant, Oregon State University	1997-1999

RESEARCH DESCRIPTION

I specialize in designing intelligent interactive systems that leverage uncertain input technologies. A particular focus of my research is on systems that enhance the capabilities of users with permanent or situationally-induced disabilities. My broader interests include human-computer interaction (HCI), speech and language processing, mobile interfaces, and crowdsourcing.

AWARDS

- NSF CAREER Award, 2018.
- Google Faculty Research Award, 2016.
- Best paper, CHI 2015 (lead author).
- Best honorable mention, ETRA 2012 (co-author).
- Best student paper, ASSETS 2012 (co-author).

Best journal nominee, TVCG 2021 (co-author).

Institute of Computing and Cybersystems Achievement Award, Michigan Tech, 2018.

Distinguished Researcher Award, Montana Tech, 2014.

Exceptional instructor evaluation, Michigan Tech: Spring 2019, Spring 2018, Spring 2017, Spring 2016.

REFEREED PUBLICATIONS

Student co-authors denoted by *. Conference acceptance rates listed where available.

- [1] Adhikary, J. *, **Vertanen, K.** Accelerating Text Communication via Abbreviated Sentence Input. *Proceedings of the Joint Conference of the 59th Annual Meeting of the Association for Computational Linguistics and the 11th International Joint Conference on Natural Language Processing (ACL 2021)*. Acceptance rate: 21%

THESES

- [52] **Vertanen, K.** Efficient Correction Interfaces for Speech Recognition. Ph.D. thesis (2009), University of Cambridge.
- [53] **Vertanen, K.** Efficient Computer Interfaces using Continuous Gestures, Language Models, and Speech. M.Phil thesis (2004), University of Cambridge.
- [54] **Vertanen, K.** A Parallel Implementation of a Fluid Flow Simulation using Smoothed Particle Hydrodynamics. Master's thesis (1999), Oregon State University.

TECHNICAL REPORTS

- [55] **Vertanen, K.** Baseline WSJ Acoustic Models for HTK and Sphinx: Training Recipes and Recognition Experiments. Technical report (2006), Cavendish Laboratory.

GRANTS

- National Science Foundation (IIS 1909089): CHS: Small: Rich Surface Interaction for Augmented Environments (2019), PI, \$500K.
- National Science Foundation (IIS 1909248): CHS: Small: Collaborative Research: Improving Mobile Device Input for Users Who are Blind or Low Vision (2019), PI, \$226K.
- National Science Foundation CAREER Award (IIS 1750193): Technology Assisted Conversations (2018), sole PI, \$539K.
- Michigan Tech Research Excellence Fund (REF): Automatic Speech Recognition using Deep Neural Networks (2018), sole PI, \$45K.
- Michigan Tech Institute of Computing and Cybersystems, Paul William Seed Grant: Sensing and Feedback for On-Body Input (2018), PI, \$44K.
- Google Faculty Research Award: Less is More: Investigating Abbreviated Text Input via a Game (2016), sole PI, \$47K.
- Montana Tech High Performance Computing Seed Grant (2013), sole PI, \$5K.
- Montana Tech New Faculty Seed Grant (2012), sole PI, \$5K.
- Nokia Corporation: Creating Enjoyable and Fluid Mobile Phone Touch-Screen Interfaces (2009), co-PI, \$18K.
- Nokia Corporation: A Mobile Speech Recognition Correction Interface (2006), sole PI, \$10K.
- University of Cambridge, Clerk Maxwell Scholarship (2004), \$120K.
- Overseas Research Student Award (2004), \$40K.
- University of Minnesota, Katherine E. Sullivan Scholarship, \$14K.

MENTORING EXPERIENCE

- PhD advisor (4 PhD students), Michigan Tech (2016-present).
- Undergraduate research advisor (9 undergraduate students), Michigan Tech (2016-present).
- PhD co-advisor (1 student), University of St Andrews (2012-18).
- Undergraduate research advisor (3 undergraduate students), Montana Tech (2013).
- Undergraduate research advisor (1 undergraduate student), Princeton University (2010-11).

INDUSTRY EXPERIENCE

Software Consultant, Wildfire Communications, 2002-2003.

Designed and built new features for Wildfire's voice-driven virtual assistant.

Software Engineer, etrieve, Inc., 1999-2002.

Lead designer of voice application for mobile access to email, contact, and calendar information.

- Team leader of the voice application group, including developing and instituting best practices.
- Responsible for reviewing the usability of etrieve's voice, web, and mobile device interfaces.
- Designed the dialog flow, prompts and grammars for the voice application.
- Created hardware and software architecture for scalable and high availability 24x7 service.

Computer Specialist, In Time, 1990-2016.

Responsible for computing and web publishing tasks within the company.

ACADEMIC SERVICE

Associate editor:

- International Journal of Human Computer Studies (2014-2019)

Subcommittee chair:

- CHI: ACM International Conference on Human Factors in Computing Systems (2020, 2021)

Associate chair:

- CHI: ACM International Conference on Human Factors in Computing Systems (2017, 2018, 2019)
- IUI: International Conference on Intelligent User Interfaces (2015)
- MobileHCI: ACM International Conference on Human-Computer Interaction with Mobile Devices and Services (2014)

Doctoral consortium co-chair:

- ASSETS: ACM SIGACCESS Conference on Computers and Accessibility (2018)

Vice-president:

- SIG-SLPAT, Special Interest Group, Speech and Language Processing for Assistive Technologies (2015-16)

Program committee:

- ASSETS: ACM SIGACCESS Conference on Computers and Accessibility (2018, 2019, 2020)
- IUI: International Conference on Intelligent User Interfaces (2014)
- SLPAT: Workshop on Speech and Language Processing for Assistive Technologies (2012, 2013, 2019)
- MobileHCI: ACM International Conference on Human-Computer Interaction with Mobile Devices and Services (2011)
- CHI Workshop on Text Entry (2012, 2013, 2016, 2017)
- BCS-HCI: British Computer Society Conference on Human-Computer Interaction (2010)

Student research competition judge:

- ASSETS: ACM SIGACCESS Conference on Computers and Accessibility (2014)

Instructor:

- ACM SIGCHI Summer School: Write a Paper for CHI 2021, IIT Bombay (2019)
- ACM SIGCHI Summer School: Computational Interaction, University of Cambridge (2018)
- ACM SIGCHI Summer School: Research Methods and Approaches to Text Entry and Other Interaction Techniques, IIT Bombay (2018)

Reviewer:

- NSF CISE panelist (2018: 1 panel, 2019: 1 panel, 2020: 2 panels)

INVITED & CONFERENCE TALKS

VelociWatch: Designing and Evaluating a Virtual Keyboard for the Input of Challenging Text
CHI '19: ACM International Conference on Human Factors in Computing Systems, May 2019.

The Impact of Word, Multiple Word, and Sentence Input on Virtual Keyboard Decoding Performance
CHI '18: ACM International Conference on Human Factors in Computing Systems, April 2018.

VelociTap: Investigating Fast Mobile Text Entry using Sentence-Based Decoding of Touchscreen
Keyboard Input
CHI '15: ACM International Conference on Human Factors in Computing Systems, April 2015.

Complementing Text Entry Evaluations with a Composition Task
CHI '14: ACM International Conference on Human Factors in Computing Systems, April 2014.

The Feasibility of Eyes-Free Touchscreen Keyboard Typing
Department of Computer Science, University of Washington, October 2013.

Efficient Correction Interfaces for Speech Recognition
School of Computer Science, University of St Andrews, June 2013.

The Potential of Dwell-Free Eye-Typing for Fast Assistive Gaze Communication
ETRA '12: ACM Symposium on Eye-Tracking Research and Applications, March 2012.

Intelligently Aiding Human-Guided Correction of Speech Recognition
AAAI '10: AAAI Conference on Artificial Intelligence, July 2010.

Efficient Correction Interfaces for Speech Recognition
MIT Computer Science and Artificial Intelligence Lab, May 2010.

Efficient Correction Interfaces for Speech Recognition
Google, April 2010.

Speech Dasher: Fast Writing using Speech and Gaze
CHI '10: ACM International Conference on Human Factors in Computing Systems, April 2010.

Recognition and Correction of Voice Web Search Queries
Interspeech '09: International Conference on Spoken Language Processing, September 2009.

Parakeet: A Continuous Speech Recognition System for Mobile Touch-Screen Devices
IUI '09: ACM International Conference on Intelligent User Interfaces, February 2009.

On the Benefits of Confidence Visualization in Speech Recognition
CHI '08: ACM International Conference on Human Factors in Computing Systems, April 2008.

POSTERS & DEMOS

Towards Improving Predictive AAC using Crowdsourced Dialogues and Partner Context
ASSETS '17: ACM SIGACCESS Conference on Computers and Accessibility, October 2017.

Speech Dasher: A Demonstration of Text Input using Speech and Approximate Pointing
ASSETS '14: ACM SIGACCESS Conference on Computers and Accessibility, October 2014.

The Feasibility of Eyes-Free Touchscreen Keyboard Typing
ASSETS '13: ACM SIGACCESS Conference on Computers and Accessibility, October 2013.

A Collection of Conversational AAC-like Communications
ASSETS '13: ACM SIGACCESS Conference on Computers and Accessibility, October 2013.

Spelling as a Complementary Strategy for Speech Recognition
Interspeech '12: International Conference on Spoken Language Processing, September 2012.

Getting it Right the Second Time: Recognition of Spoken Corrections
SLT '10: IEEE Workshop on Spoken Language Technology, December 2010.

Automatic Selection of Recognition Errors by Respeaking the Intended Text
ASRU '09: IEEE Workshop on Automatic Speech Recognition and Understanding, December 2009.

Parakeet: A Demonstration of Speech Recognition on a Mobile Touch-Screen Device
IUI '09: ACM International Conference on Intelligent User Interfaces, February 2009.

Combining Open Vocabulary Recognition and Word Confusion Networks
ICASSP '08: IEEE International Conference on Acoustics, Speech, and Signal Processing, March 2008.

Speech Dasher – A Novel Interface for Correcting Speech Recognition Errors
ICASSP '08: IEEE International Conference on Acoustics, Speech, and Signal Processing, March 2008.

Speech and Speech Recognition during Dictation Corrections
Interspeech '06: International Conference on Spoken Language Processing, September 2006.

Speech Dasher: An Efficient Interface Using Speech and Gestures
NIPS '04: Conference on Neural Information Processing Systems, December 2004.
