## Biography

---

The League of Women Voters, a nonpartisan political organization, encourages informed and active participation in government, works to increase understanding of major public policy issues, and influences public policy through education and advocacy. The League of Women Voters, a nonpartisan political organization, has fought since 1920 to improve our systems of government and impact public policies through citizen education and advocacy. The League's enduring vitality and resonance comes from its unique decentralized structure. The League is a grassroots organization, working at the national, state and local levels. There are Leagues in all 50 states, the District of Columbia, Puerto Rico, the Virgin Islands and Hong Kong, in addition to the hundreds of local Leagues nationwide. The League of Women Voters of the United States and the League of Women Voters Education Fund operate at the national level with grassroots support from state and local Leagues. The League of Women Voters is strictly nonpartisan; it neither supports nor opposes candidates for office at any level of government. At the same time, the League is wholeheartedly political and works to influence policy through advocacy.
