April, 2022

Senate Procedure [503.1.1](#) defines the Senate’s annual evaluation of the President and Executive Team.

All questions used in 2019-2020¹ were used in this year’s survey to maintain consistency. Additionally, APC added the following questions specific to the COVID-19 pandemic:

- Q19. How do you rate the President’s leadership on issues related to the COVID pandemic?
- Q20. Do you have any specific comments about any aspects of the President's leadership on issues related to the COVID pandemic?

This year’s survey was issued March 1, 2022 and was open until March 30, 2022. Table 1 summarizes response rates with comparison to the 2019-20 survey.

Table 1. Survey Distribution, Responses, and Response Rates

	2021-22	2019-20 (last survey)
Total survey distribution (non-student employees)	1284	1400
Total responses	403	443
Response rate	31.3%	31.6%

¹ Past *Evaluations of the University President* have been undertaken in late spring, but were supposed to be evaluations over the prior academic year. Hence the last evaluation was undertaken in Spring, 2021, but were targeting evaluation over academic year 2019-2020. The current Administrative Policy Committee of University Senate found in informal conversation that many constituents this timing and numbering policy for Presidential Evaluation to be obscure and not as valuable as it could be. Hence the current evaluation was undertaken in March, 2022, but the target evaluation period was academic year (2021-2022). Going forward, APC will set the period for constituents to have access to the survey form in Weeks 13, 14, Finals Week, and the week immediately following Finals Week of the current academic year, and with reporting to Senate in the first available slot in the following fall semester.
