Proposal 30 - 21

Proposal to Extend the Time for Completion of an Incomplete Grade

(Voting Units: Academic)

Submitted by: Academic and Instructional Policy Committee

In order to accommodate students with limited access to the materials necessary to complete classes during the COVID pandemic, and due to the uncertainty of the length of this crisis, it is proposed that the time to complete an "I" (incomplete grade) for any semester affected by the COVID pandemic, be extended to one year past the end of the course.
