Summary Information

Repository:	Michigan Technological University Archives and Copper Country Historical Collections
Title:	Michigan Technological University Center for Integrated Learning and Information Technology construction photographs
ID:	MTU-246
Date:	2003
Physical Description:	0.02 cubic feet 1 folder
Language of the Material:	English .
Mixed Materials [sc_box]:	MTU 2
[folder]:	38
Abstract:	Color photographs, approximately 2003, of construction and renovation of the library, Rekhi Hall, and Advanced Technology Development Complex at Michigan Technological University.

Preferred Citation

MTU-246, Michigan Technological University Center for Integrated Learning and Information Technology Construction Photographs, Michigan Technological University Archives and Copper Country Historical Collections, Houghton, Michigan.

Historical Note

In 2003, Michigan Technological University broke ground on a major campus construction project resulting in the erection of three new structures on the south side of central campus. In January 1999, planning for a Center for Integrated Learning and Information Technology began with initial plans calling for a renovation of Fisher Hall and the Michigan Tech Library; as well as added space for the computer science, mathematical science, and physics departments. In August 2001, the State of Michigan authorized the planning for a reduced version of the proposed project and in December 2001, the Detroit-based SmithGroup, Inc. was

selected as the primary architectural firm. Groundbreaking began in May 2003 and in 2005, Rekhi Computer Science Hall was formally dedicated and opened to the campus community.

The \$35-million facility was funded partially by the Ford Motor Company Fund, the U.S. Department of Commerce Economic Development Administration, John and Ruann Opie, and Kanwal and Ann Rekhi. The resulting structures include what is now the John and Ruann Opie Reading Room, the Kanwal and Ann Rekhi Computer Science Hall (generally referred to as Rekhi Hall), and the Advanced Technology Development Complex.

Scope and Contents

Color photographs, approximately 2003, of construction and renovation of the library, Rekhi Hall, and Advanced Technology Development Complex at Michigan Technological University. The collection includes sixty (60) color inkjet photographs of interior and exterior views of the construction sites on campus from October to December 2003. Each page includes the project title, bid number, construction company and architectural firm name; a photo number, date, and a brief description of the image.
