Requested Rate Reduction to _____%

Institutional Cost: Indirect Cost Recovery if Sponsor's Normal Rate is Used \$ _____
 Indirect Cost Recovery if Requested Rate/Waiver is Used \$ _____
 Loss (Cost) to the Institution \$ _____

Reason(s) for Request: *(please justify below)*

The project requires significant institutional cost-sharing that cannot be fully met by other sources.

The assessment of the full indirect cost rate or administrative fee would significantly reduce the competitiveness of the proposal.

The project carries a maximum allowable total cost. Assessment of the full indirect cost rate would reduce the amount of funds available for project implementation to such an extent that the scope of work or deliverable could not be accomplished.
