What can I do to best prepare myself to succeed in the Computer Science program at Michigan Tech?

Success in key first and second-year classes is \textbf{critical} to your continued success in the Computer Science program.

\textbf{First-Year CS}  
CS1121, CS1122, CS2321

\textbf{Mathematics}  
MA1030, 1031, 1032  
MA1160, 1161  
MA2330

\textbf{Achieve an A or B, but at least a C}

\textbf{Success in your junior and senior Computer Science classes and a rewarding career!!}

\textbf{Information on Retaking Classes}

You may retake any class in which you receive a \textit{CD}, \textit{D}, or \textit{F}.

The second grade \textit{always} replaces the first grade. If you retake a class and receive a better grade, this will improve both your semester and overall GPAs. However, you can retake a class and get a worse grade. For example, if you have a \textit{D} (a passing grade) and retake a course and receive an \textit{F} (a failing grade), you now have a failing grade in the course and would have to take the class for a third time.

You may only take a class three times. You must receive permission from the Office of Student Affairs and your academic advisor to register for a class the third time. If the class that you are retaking is a required class for your program, and you do not pass the class with a \textit{D} or higher during the third attempt, then you may no longer continue in the program. Below is the link to Michigan Tech’s policy on retaking classes. \url{www.mtu.edu/registrar/students/registration/policies/repeat-course/}

Retaking classes you have previously passed may also impact your financial aid. Contact the Financial Aid Office (\url{www.mtu.edu/finaid/}) for an evaluation of your situation.

\textbf{Questions? Contact the Computer Science Advising Office.}
