# Anticipated Outcomes of the Student Team

Click here to summarize the high level deliverables we expect the team to accomplish, with brief explanation for each. This should not be a detailed proposal, but rather an outline of the major activities/deliverables to be completed.

# Key Functional Requirements of the Material, Product, Process, or System

Click here to include the required functions – what the system has to do -- without specifying solutions/how to achieve, so that the team can translate these into design requirements.

# Special Notes

Click here to enter anything pertinent to the project that is not captured above – relevant background needed for the project such as coursework, software, potential for recruiting opportunities, visits to/by the sponsor, etc.

# Sponsor Contact Information

- **Name:** Click here to enter first and last name.
- **Title:** Click here to enter job title.
- **Company:** Click here to enter company name.
- **Email:** Click here to enter email address.
- **Phone:** Click here to enter phone number(s).

# Mailing Address:

Click here to enter address.

# Sponsor to Provide

- Click here to enter list of key items sponsor provides in support of the project.

# Michigan Tech to Provide

- Click here to enter list of key items Michigan Tech provides in support of the project.
