We love LinkedIn, but sometimes your LinkedIn profile can feel a bit like a resume on top of a resume. In less than a minute, you can show all your valuable connections real examples of what you can do by embedding a work from your Seelio to your LinkedIn profile! All that time you spent crafting your perfect work on Seelio is about to pay two-fold!

ONE

Log into LinkedIn and navigate to your profile. Scroll to a section of your profile you’d like to enhance with a Seelio work. Click on the icon that allows you to add an attachment (marked with an arrow in the screenshot).

TWO

Navigate to your Seelio Portfolio and click on the work you’d like to add to your LinkedIn. Click on the “Share” button in the top, right corner of the work. Copy the URL.

THREE

Return to LinkedIn. Paste the link for your work in URL field then click “Continue”.

LinkedIn will auto-populate your work’s title, all related visuals, and your description. Click “Add to Profile” and voilà! You’ve used your Seelio portfolio to go beyond bullet points!

Now, when someone views your LinkedIn profile and wants to learn more about your experiences, they can jump right into one of you works on Seelio!
