Undergraduate Research Internship Program
for the 2018-19 Academic Year

The Pavlis Honors College is pleased to announce the fourth year of our Undergraduate Research Internship Program for the 2018-19 academic year. Please note that URIP 2018-19 applications will be due March 28, 2018. This differs from the 2017-18 URIP as these applications were due in the Fall of 2017. We have made this change based on feedback from faculty and students.

There are now two tracks for faculty mentors to consider:

- Faculty in Health-Related Fields are invited to identify an undergraduate research intern with any amount of prior experience - Portage Health Foundation Scholars
- Faculty in any discipline are invited to identify an undergraduate intern that is relatively new to research or scholarship (less than 6 months) - Pavlis Young Investigators

The internship program is open to any student on campus. Faculty are welcome to apply with students with whom they are already working. The program consists of a 20-week internship (September through mid-March) as well as professional development activities centered on academic research and scholarship.

The Pavlis Honors College will provide $800 in funding for the student intern, with the expectation that faculty will provide matching funds to be dispensed concurrently, resulting in a total of $1600 (or $10/hr for 8 hours per week for a period of 20 weeks). Faculty may make use of research funds, IRAD, startup packages, or consult their chairs, deans or center/institute management to identify the source of their match.

Once accepted into program, the student intern is required to:

- meet with the faculty mentor within the first 2 weeks of the internship and complete an individual development plan (IDP) - a form will be provided by the Pavlis Honors College;
- attend at least 3 Research Scholarship Workshops (see suggested schedule below); and
- present their research findings in a poster at the Undergraduate Research Symposium in March (Friday of Preview Weekend).

Applications are due by March 28, 2018 and include the following:
1. Online Application Form
2. Project Description
3. Faculty Mentor Letter of Support
4. Faculty Match Funding Acknowledgement

The Project Description is to be completed as a collaborative effort between the student applicant and the faculty mentor. Details of these requirements can be found at mtu.edu/honors/research/urip/application.html.

Planned Workshop Topics -
- Making the Most of Mentorship
- Plagiarism (offered by the Van Pelt and Opie Library)
- Documenting your Research
- Literature (Finding it and Reading it)
- Summer Undergraduate Research Fellowship (SURF) Workshops
- Research Integrity
- Abstracts and Posters
- Practice Poster Talks

This program is made possible by generous donations from the Portage Health Foundation and with the support of the Pavlis Honors College.
