OFFICE OF INNOVATION
AND INDUSTRY ENGAGEMENT
eNEWSWIRE

Welcome to Michigan Technological University's **Office of Innovation and Industry Engagement (IIE) eNewswire**. This periodic briefing provides an update on University recruiting, research, licensing, and professional development news and programs of interest to industry stakeholders.

The mission of the IIE eNewswire is to create awareness of University programs and resources that will help companies and industry achieve their strategic goals. Together, through strong partnerships with industry, Michigan Tech students, faculty, and staff will create the future.

Featured Partner

The Dow Chemical Company

Dow Chemical helps define what makes a great partnership between industry and a university. Dow's campus engagement through Career Services, scholarships, facilities support, and faculty research has helped them remain ranked as a top company to work for by students. Their recent programming partnerships in K-12 STEM education are developing their next generation of talent. → [Read More...](#)

Featured Program

Female and Minority Enrollment Up

Tech's enrollment continues to grow, reaching 7,100 this fall. Strategies to increase female, minority, and graduate student

Highlights

Spring Career Fair
Tuesday, February 17, 2015

enrollment numbers are pushing the university enrollment numbers for these groups to all-time highs. And entering students' average ACT scores continue to rise. → [Read More...](#)

Featured Research

Advanced Lightweight Materials Partnership

A new partnership through the American Lightweight Materials Manufacturing Innovation Institute (ALMMII) supports Michigan Tech's role in developing advanced lightweight materials for automotive, aerospace, rail, and trucking industries. → [Read More...](#)

Featured Faculty

Ott Receives First Diversity Award

"Boys get the message that computing is a great career, but girls don't, and that drives me crazy," explains Linda Ott, Michigan Tech's first Diversity Award recipient. Ott's call to action includes K-12 STEM outreach through a variety of programs including a summer Women in Computer Science (WICS) program for high school girls. → [Read More...](#)

Featured Technologies

Advanced Applied Material Technologies

Through the Michigan Translational Research and Commercialization (MTRAC) program Michigan Tech is supporting the acceleration of commercially viable advanced material technologies, bringing research closer to benefiting people and the planet. → [Read more...](#)

Contact [John Diebel](#) at 906-487-2228 for more information on Michigan Tech's MTRAC program.
