OFFICE OF INNOVATION
AND INDUSTRY ENGAGEMENT
eNEWSWIRE

Welcome to Michigan Technological University's **Office of Innovation and Industry Engagement (IIE) eNewswire**. This periodic briefing provides an update on University recruiting, research, licensing, and professional development news and programs of interest to industry stakeholders.

The mission of the IIE eNewswire is to create awareness of University programs and resources that will help companies and industry achieve their strategic goals. Together, through strong partnerships with industry, Michigan Tech students, faculty, and staff will create the future.

Featured Partnership

Summer Youth Program Scholarships

The talent pipeline starts with Michigan Tech's Summer Youth Programs and for many middle and high school kids this opportunity is unaffordable. Thanks to our partners like **Jackson**, **Ford Motor Company**, and **3M Foundation**, many high achieving youth will begin their path towards STEM careers this summer at Michigan Tech. → [Read More...](#)

Featured Event

Design Expo 2015

More than 600 students in Enterprise and Senior Design teams will showcase their work and compete for awards. A panel of

Tech Rankings in the News

US News and World Report's recently released annual graduate engineering specialty rankings shows six Michigan Tech programs on the rise. → [Read More...](#)

Business Insider financial news ranks Michigan Tech 15th in the nation for mid-career salaries and 10th in starting salaries among public universities. → [Read More...](#)

Featured Research

Mapping the Great Lakes

Satellites and remote sensing technologies are being used by research scientists at the Michigan Tech Research Institute in Ann Arbor, Michigan, to comprehensively map the Great Lakes basin from 200 miles above the earth's surface. Publicly available, these maps will help scientists track invasive vegetation species that threaten the health of the Great Lakes and inland water systems. → [Read More...](#)

Featured Faculty

CAREER Award for Virus Removal & Purification

Caryn Heldt, an assistant professor of chemical engineering at Michigan Tech, has been awarded a prestigious CAREER Award grant from the National Science Foundation for her work towards techniques to remove viruses from water and purifying viruses for vaccine production. → [Read More...](#)

Featured Technology

"Seeing" the Next Step Improves Robotic Ankle
