eNEWSWIRE

Office of Innovation and Industry Engagement

Michigan Technological University

Welcome to Michigan Technological University's Office of Innovation and Industry Engagement (IIE) eNewswire. This periodic briefing provides an update on University recruiting, research, licensing, and professional development news and programs of interest to industry stakeholders.

The mission of the IIE eNewswire is to create awareness of University programs and resources that will help companies and industry achieve their strategic goals. Together, through strong partnerships with industry, Michigan Tech students, faculty, and staff will create the future.

Featured Partner

SYSTEMS CONTROL

Systems Control, a division of Northern Star Industries, Inc., has over fifty years of expertise as an industry leader in the design and manufacture of engineered solutions that enable the reliable delivery of energy to the world.

Featured Program

Girls Get Role Models for Women in Automotive Engineering

When Jennifer Shute and Jody Hand took leadership roles in MTU's inaugural Women in Automotive Engineering (WIAE), one of their goals was to provide young women with something they didn't have when they were students at Michigan Tech - female role models in the automotive industry.

Featured Technology

Watch a Tiny Space Robot Work

Moving a nanosatellite around in space takes only a tiny amount of thrust. Engineers from Michigan Tech and the University of Maryland teamed up, put a nanoscale rocket under a microscope, and watched what happened.
