14 Local Students Win Portage Health Foundation Making a Difference Scholarship

Walk, Weld, and Win

From die casting vents to human gait analysis to transcatheter stents, the winning

teams at this year's Design Expo show how cutting edge tech is brought into daily life.

Four students who are entering Michigan Technological University this fall to pursue health-related careers have received \$8,000 Making a Difference scholarships from the [Portage Health Foundation](#). Another 10 entering first-year students received \$1,000 awards.

The students would like to thank the Portage Health Foundation for this wonderful opportunity!
