Building a World of Difference

Black & Veatch has been helping invest in Michigan Technological University students for over 25 years. They have contributed to student organizations, student events, and scholarships throughout these years.

BLACK & VEATCH

Earthworms at the Root of Sugar Maple Decline

The worms crawl in, the worms crawl out, and corpses aren't the only casualties. A Michigan Technological University scientist has fingered non-native earthworms as a primary culprit in the decline of an iconic American tree.

Women in Automotive Engineering: Girls at Michigan Tech Say "Why Not?"

Kaleigh Pare's dad is a Michigan Tech alumnus and an engineer who recruits for Chrysler. But until she came to the Women in Automotive Engineering program at Michigan Tech, all Kaleigh, 17, knew about cars was how to drive one and change the oil—"with my father's help."

Alumni Reunion draws a record number of graduates, family and friends to honor the past and see what's new at their University.
