Dow Chemical Partners with Michigan Tech Mind Trekks and Delta College to Present the 2017 Dow Great Lakes Bay Stem Festival

3... 2... 1... BOOM! Students jump and scream with excitement as they watch a liquid nitrogen explosion send gallons of water and ping pong balls soaring through the air.

In early October, the Michigan Tech Mind Trekks partnered with Dow Chemical to host the fifth annual "Great Lakes Bay STEM Festival", an event co-hosted with Delta College in Bay County, Michigan.

Turn of the Century Meets State of the Art

Michigan Technological University's APS LABS provides a variety of talent, equipment, and expertise to many different customers. For the first ever annual meeting of the Advanced Light Duty Engine Consortium, APS LABS wanted the experience to go beyond in-depth technical discussions and include informal meetings with student researchers and a touch of local culture.
