## Oshkosh – Fueling Renewable Energy Education on Campus

Oshkosh Corporation has a long history of partnership with Michigan Technological University. The Oshkosh brand includes many more items than just their Oshkosh Defense products. Their business has expanded to include the brands of McNeilus, JLG, Pierce, IMT, and many others.

### Prometheus Borealis Team Goes from Blizzard to Desert for the AutoDrive Challenge

Named for the Greek deities of knowledge, learning and the north wind, Michigan Tech's Prometheus Borealis team placed second in concept design and eighth overall in the inaugural competition of the AutoDrive Challenge, a three-year collegiate design competition sponsored by SAE International and GM.

### Create and Innovate in The Alley

Did you know Michigan Technological University used to have a bowling alley in the Memorial Union Building (MUB) basement? Well, it's not a bowling alley anymore. It's something better: the Alley makerspace.

### UP Region Wins Excellence and Innovation Award

Five months serving as host to the UP Regional Office of the Small Business Development

## **Michigan Tech Receives NCWIT Surging Enrollment Seed Fund to Bring More Women Into Computing**

Michigan Technological University is one of four institutions to receive the 2018 National Center for Women & Information Technology (NCWIT) Surging Enrollment Seed Fund. The fund expands diversity of incoming computing students in the face of increasing enrollment in computing programs.

Center (SBDC), Michigan Tech and region recognized by state. The week of April 29 was National Small Business Week. For Michigan Technological University's Office of Innovation and Industrial Engagement (IIE), it's small business week every week.

**Mailing address:** Michigan Technological University, 1400 Townsend Dr, Houghton, Michigan, 49931, US
