New Study Traces University Impact on State Economy

Michigan Technological University created about 4,200 jobs and generated \$448 million in spending in the State of Michigan in 2016, delivering a nearly 10:1 rate of return on every dollar the state invests in it, according to an economic impact study by Anderson Economic Group.

Michigan Tech Talks Mobility at Plug and Play Event in Detroit

On July 11, PlanetM, in partnership with Plug and Play, hosted a Matchmaking summit in Detroit at Little Caesars Arena, designed to connect start-ups in the autonomous vehicle space with OEM's and suppliers.

A Growing Relationship: SYP Partnership with South Korean High School Continues to Thrive

More than 1,100 graduate and undergraduate students from more than 50 countries attend Michigan Technological University every year. This summer, middle and high school students from 11 countries keep the international atmosphere going strong.

Lab Culture

It's a common refrain: Michigan Technological University's size allows students to get to know their professors and feel like part of a family. This holds true in laboratories around campus, where students are both welcomed to participate in research and challenged to perform with excellence.

Mobility

There are many real-world scenarios where mobility is needed. Interdisciplinary teams at Michigan Tech tackle research challenges in the air, on land, and even underwater.
