Mobility in Detroit Experience 2018

Michigan Technological University partnered with the Detroit Chamber of Commerce, Michigan Tech Career Services, and MICHauto to create a unique opportunity for students interested in careers in the automotive industry. Over 80 Michigan Tech students applied, but only 22 were selected to participate in this event.

New Campaign to Fund Prospective Huskies

Tech Forward: The Self- Authoring Mind

Michigan Technological University's thought leaders share their ideas to prepare students and the University for a rapidly changing future. Lorelle Meadows, dean of Pavlis Honors College, explains the importance of critical reflection and a self-authoring mind.

How might we prepare the student of today to address the needs of society at a level that machines cannot?

Michigan Tech has started a new crowdfunding campaign through the help of Superior Ideas to raise money for travel and accommodations for underrepresented prospective Huskies. Given the Keweenaw's unique geographical location, many students considering Michigan Tech are faced with barriers such as high transportation and accommodation costs when trying to plan a campus visit.

Welcome to Dreamland: Michigan Tech Sleep Research Laboratory Opens

The recently opened Michigan Tech Sleep Research Laboratory combines sleep analysis technologies to provide a window into the effects of sleep on cardiovascular health.

The two-bed sleep facility is located in the Student Development Complex and has a core staff of two faculty researchers, a sleep physician, a registered nurse who is also a certified sleep technician, a lead doctoral student researcher, as well as other graduate students and undergraduate students.

Grand Traverse Region Day Connects Michigan Tech Students to Industry

Michigan Tech students flocked to the Rozsa Center lobby to find out what it's like to work and live in the Grand Traverse region of northern lower Michigan.
