Full-featured, Dual Mode, Dual Port, Multi-line IP Phone

The dual mode Mitel® 5212 IP Phone is a handsfree IP speakerphone with multi-line backlit display and programmable feature keys. It provides intuitive user access to more sophisticated call handling and converged applications supported by the Mitel Integrated Communications Platforms (ICPs). It is easily personalized with programmable keys or a web browser-based desktop configuration tool. The 5212 IP Phone is an ideal teleworker or ACD agent phone.

Simple Access to Sophisticated Applications
The 5212 IP Phone provides IP functionality with the ease and familiarity of a traditional business phone. User friendly, it features Superkey programming for feature-set customization and a 40-character white, backlit, graphics display. It is an ideal choice for users that need access to sophisticated system features—such as teleworkers, ACD agents, technical support staff, office workers, sales and customer service departments.

Business Telephones that Maximize your Productivity
The 5212 IP Phone is one in a series of IP phones designed to meet the diverse communication needs of users across the enterprise—from affordable entry-level IP phones to sophisticated network devices. All are designed with ergonomics and modern office aesthetics in mind.
**Features**
- Support for SIP and MiNET protocols
- Handsfree speakerphone operation (half duplex)
- Twelve programmable multi-function keys with dual-color LED indicators* (for speed dialing, line appearances, feature access)
- Eight function keys: Hold, Superkey, Message, Speaker, Mute, Transfer / Conference, Redial, Cancel
- Two-line, 20-character white, backlit, graphics display with contrast control and auto-dimming
- Superkey programming for easy access to telephone system features
- Teleworker application support
- Page Send / Receive
- On hook dial
- Off-Hook Voice Announce and Handsfree answerback
- Dedicated headset jack
- Do Not Disturb
- Speed calling
- Call forward
- Call hold (Place / Retrieve)
- Call transfer
- Conference call setup
- Voice mail access – large message waiting lamp
- Last number redial
- Browser-based desktop configuration tool
- Automatic Call Distribution (ACD) agent support
- Customizable center panel
- Hearing Aid Compatible handset
- Two-position, 35 degree tilting stand for better viewing angle
- Wall mountable
- Multiple powering options (802.3af compliant)

**Dual Mode**
The new Mitel 5212 IP Phone supports both SIP and Mitel IP (MiNET) protocols on a single hardware platform

**Dual-port**
Two 10 / 100 Mb switched Ethernet ports – one connects the 5212 IP Phone with an Ethernet wall jack, the other with the user’s PC

**Compression Support**
G.711, G.729

**Voice QoS**
Supports IEEE 802.1p/q for Quality of Service

**Powering Options**
Accepts standards based (IEEE 802.3 af) power over the LAN via spare pair or signal pair, or supports 48 VDC Ethernet / AC Power wall adapter

Companies don’t make decisions, people do. That is why Mitel is leading the way toward a new and more personalized approach to communications for enterprise and small business. Our innovative solutions, applications and desktop appliances enable you to access, process and control your communications and information naturally, simply and efficiently. Our solutions allow you to collaborate over distance and time and to interact with your customers, colleagues and partners as never before. By combining the power of voice, data and video over converged high speed networks, Mitel provides you with flexible and personalized tools that let you leverage the latest advances for personal and organizational advantage.
Quick Reference Guide

Make a Call
1. Lift the handset, or
2. Press \[\text{SPK}\] , or
3. Dial the number, or
4. Press a Speed Call key, or
5. Dial the prefix for external calls (e.g. 9) and the number.

Answer a Call
1. Lift the handset, or
2. Press \[\text{SPK}\] and begin speaking.

End a Call
1. Press \[\text{OFF}\] , or
2. Replace the handset.

Place a Call on Hold
1. Press \[\text{OFF}\] . The line key flashes.
2. Replace the handset if necessary.

Retrieve a Call from Hold
1. Lift the handset, or
2. Press \[\text{SPK}\] , or
3. Press the flashing line key.

Retrieve a Message
1. Press \[\text{MSG}\] . It flashes when a message is waiting. Follow the voice mail prompts to retrieve your message.

Transfer a Call
1. Press \[\text{OFF}\] .
2. Dial the number. Wait for an answer.
3. Hang up, or announce the transfer and then hang up.

Conference a Call
1. Press \[\text{OFF}\] .
2. Dial the number. Wait for an answer.
3. Press \[\text{OFF}\] .

Program a Speed Call
1. Press \[\text{OFF}\] .
3. Press \*.
4. Press a Personal Key.
5. Press \*.
6. Dial the number, or
7. Press 123 , to redial the last number.
8. Press the Personal Key again.
9. Press \* to make the number private, or
10. Press \# to keep the number visible.
11. Press \[\text{OFF}\] .

Adjust Volume Levels
Adjust ringer volume while the phone is ringing. Adjust speaker volume while using the handset or speaker.
1. Press \[\text{SPK}\] repeatedly to raise the volume, or
2. Press \[\text{SPK}\] repeatedly to lower the volume.
3. Press \[\text{MUT}\] to mute the microphone. Refer to the 5212/5224 IP Phone User Guide.

Note: For more information about using Mute or other features, or about programming Personal Keys on your 5212 IP Phone, refer to the 5212/5224 IP Phone User Guide located at www.tc.mtu.edu/voice/voiceservices/voip/5212/5224userguide.pdf, or contact Telcom.
Quick Reference Guide

1. Lift the handset, or
2. Press \[ \text{Speak} \]
3. Dial the number, or
4. Press a Speed Call key, or
5. Press 123 \[ \text{Prefix} \], or
6. Dial the prefix for external calls (e.g. 9) and the number.

Answer a Call
1. Lift the handset, or
2. Press \[ \text{Speak} \], and begin speaking.

End a Call
1. Press \[ \text{Hang Up} \], or
2. Replace the handset.

Place a Call on Hold
1. Press \[ \text{Hold} \].
2. Press the flashing line key.

Retrieve a Call from Hold
1. Lift the handset, or
2. Press \[ \text{Speak} \], and press the flashing line key.

Retrieve a Message
1. Press \[ \text{Message} \]. It flashes when a message is waiting. Follow the voice mail prompts to retrieve your message.

Transfer a Call
1. Press \[ \text{Transfer} \].
2. Dial the number. Wait for an answer.
3. Hang up, or announce the transfer and then hang up.

Conference a Call
1. Press \[ \text{Conference} \].
2. Press a Personal Key.

Program a Speed Call
1. Press \[ \text{Program} \].
2. Press Yes to make the number private.
3. Press \[ \text{Save} \].

Adjust Volume Levels
Adjust ringer volume while the phone is ringing. Adjust handset or speaker volume while using the handset or speaker.
1. Press \[ \text{Volume} \] repeatedly to raise the volume, or \[ \text{Mute} \] repeatedly to lower the volume.
2. Press \[ \text{Mute} \] to mute the microphone. Refer to the 5212/5224 IP Phone User Guide.

**FEATURE ACCESS CODES**

47
ABOUT YOUR PHONE

The Mitel 5212 and 5224 IP Phones are full-feature, dual port, dual mode telephones that provide voice communication over an IP network. Each features a back-lit liquid crystal display (LCD) screen, display-assisted access to features, on-hook dialing and off-hook voice announce with handsfree answerback, and a large ring/message indicator. The 5212 IP Phone offers 12 programmable keys, and the 5224 IP Phone offers 24 programmable keys for one-touch feature access. Both phones provide ten fixed feature keys for convenient access to features such as Conferencing, Redial, and many customizable user settings. The 5212 and 5224 IP Phones support Mitel Call Control (MiNet) protocols and session initiated protocols (SIP). The 5224 IP Phone also supports modules such as the Line Interface Module, 5310 IP Conference Unit, and the 12 and 48 Button Programmable Key Modules. The 5224 IP Phone can be used as an ACD Agent Phone or a Teleworker phone.

The personal key on the bottom (left on 5212, right on 5224) is always your Prime Line; the remaining personal keys can be programmed as:

- Feature keys (for example, Swap). You can program feature keys from your phone. Your administrator can also program feature keys.
- Speed Call keys. You can program speed call keys from your phone.
- Line Appearances. Only the administrator can program line appearances.

<td>Use for handset calls. If you are in headset or handsfree mode, you do not need to use the handset.</td>
</tr>
</tbody>
</table>
Selecting Menu Options

Because the 5224 IP Phone offers softkeys, feature availability and menu options for the 5212 and 5224 IP Phones may differ.

To select menu items on the display:

1. On a 5224 IP Phone, press the softkeys.
2. On a 5212 IP Phone, press *, 0 and # on the keypad. For example, if options *=YES 0=DEFAULT #=NO appear and you want to select YES, press *.

Procedures in this guide show all menu selection options, where applicable—for example, "Press the * or Yes softkey". Procedures in this guide also specify when a menu option is available on only one of the phones—for example, "On a 5224 IP Phone only, press the Save softkey".

About Feature Access Codes

Use of some features requires dialing access codes. The codes are flexible and may be different than those in this guide. Ask your Administrator for a list of codes you should use.
For Users on Resilient 3300 ICP Systems

If during a call, you hear two beeps repeated every 20 seconds it means that your phone is switching to a secondary 3300 ICP system. The call continues but some of the keys and features on your phone function differently. The keys and most features begin working normally again after you hang up. If your phone switches to the secondary system while your speaker or handset is muted (that is, while the MUTE light is on), the call remains muted until you hang up. Normal operation resumes when your phone switches back to the primary system. If your phone is idle and switched to the secondary system, you'll see a flashing rectangle on the display. The rectangle remains until the switch to the primary system is complete.

TIPS FOR YOUR COMFORT AND SAFETY

Don't cradle the handset!

Prolonged use of the handset can lead to neck, shoulder, or back discomfort, especially if you cradle the handset between your ear and shoulder. If you use your phone a lot, you may find it more comfortable to use a headset. See the section on headset usage elsewhere in this guide for more information.
Protect your hearing

Your phone has a control for adjusting the volume of the handset receiver or headset. Because continuous exposure to loud sounds can contribute to hearing loss, keep the volume at a moderate level.

**IMPORTANT NOTE FOR HEADSET USERS:** Mitel Headsets with Feature Control Switch must be installed in the dedicated headset jack (the jack on the back of the phone). Installation will disable your handset microphone. Disconnecting the headset at the jack or at the quick-disconnect plug restores handset operation.

Adjust the viewing angle

The stand built into your phone tilts to give you a better view of the keys.

*To tilt your telephone for better viewing:*

1. Turn the phone so that the front faces away from you.
2. Hold the base unit firmly and press the release tabs on the sides of the stand to detach the base unit.
3. Hinge the hooks of the base unit into the notches on the back of the phone and snap into place as follows:

   a. For a high–angle mount, hinge the two lower hooks into the bottom set of notches and snap the two upper hooks into the middle set of notches.
   b. For a low–angle mount, hinge the two lower hooks into the middle set of notches and snap the two upper hooks into the top set of notches.
CUSTOMIZING YOUR 5212/5224 IP PHONE

Ringer Control

To adjust the Ringer Volume while the set is ringing:

- Press (UP) or (DOWN).

To adjust the Ringer Pitch while the set is idle:

1. Press (SUPERKEY).
2. Press # or the No softkey until "Ringer Adjust?" appears.
3. Press * or the Yes softkey twice.
4. Press (UP) or (DOWN).
5. Press (SUPERKEY).

Handset Receiver Volume Control

To adjust the Handset Receiver Volume when you are using the handset:

- Press (UP) or (DOWN).
**Speaker Volume Control**

*To adjust the Speaker Volume when making an on-hook call or when listening to background music:*

- Press 🡒 (UP) or 🡑 (DOWN).

**Display Contrast Control**

*To adjust the Display Contrast while your set is idle:*

- Press 🡒 (UP) or 🡑 (DOWN).
Feature Keys

You can use (SUPERKEY) on your phone to program the persona keys as feature keys.

To program some features to a personal key, you must dial a feature access code. A list of access codes is provided elsewhere in this guide.

*To display information about a key:*
1. Press (SUPERKEY).
2. Press a personal key that isn't a line key.
3. Press (SUPERKEY).

*To program a personal key:*
1. Press (SUPERKEY).
2. Press # or the No softkey until "Personal Keys?" appears.
3. Press * or the Yes softkey.
4. Press a personal key that isn't a line key.
5. Press * or the Change softkey.
6. Press # or the No softkey until the desired feature appears.
7. Press * or the Yes softkey.
8. On a 5212 IP Phone only, press # to save the feature under the chosen key.
9. Press (SUPERKEY), or press another personal key and proceed to program another feature.
0. Write the feature name on the key label.
**Language Change**

*To change the display language:*

1. Press 🎤 (SUPERKEY).
2. Press # or the No softkey until "Language?" appears.
3. Press * or the Yes softkey.
4. Press * or the Change softkey.
5. Press # or the No softkey until the desired language appears.
6. Press * or the Yes softkey.

**MAKING AND ANSWERING CALLS**

**Make a call**

1. Lift the handset (optional).
2. If you want to use a Non–Prime Line, press a Line Appearance key.
3. Do one of the following:
   - Dial the number
   - Press a Speed Call key
   - Press 123→ (REDIAL).

**Answer a call**

Do one of the following:

- Lift the handset.
- Press 🎤 (SPEAKER).
- Press the flashing Line appearance key and lift the handset.
- Press the flashing Line appearance key and press 🎤 (SPEAKER).
EMERGENCY CALLS

To make an Emergency Call:
1. Lift the handset.
2. Dial your Local Emergency Number (911).
Phonebook (5224 IP Phone only)

To use Phonebook:

- Press (SUPERKEY). Press the Yes softkey when "Phonebook?" appears.
- Enter the name of the desired party, as follows:
  - For each letter in the name, press the appropriate key on the keypad until the letter is shown in the display. For example, if the letter C is required, press the digit 2 three times.
  - Use the <— softkey to correct errors.
  - If the next letter in the name is on the same digit key as the previous letter, press the —> softkey before proceeding.
  - If required, press —> softkey to add a space between the first and last name.
- Press the Lookup softkey.
- If no match exists, edit the original entry.
- If more than one match is found, press the Next softkey.
- Do one of the following:
  - To make the call, press the Call softkey.
  - To edit the entry, press the Retry softkey.
  - To exit, press (SUPERKEY).

Redial

To redial the last number that you manually dialed:
1. Lift the handset (optional).
2. Press (REDIAL).

Redial – Saved Number

To save the last number that you manually dialed:
- Lift the handset, and then dial #22.

To Redial a saved number:
- Lift the handset, and then dial *22.
Speed Call Keys

You may use Speed Call Keys to make a call or to send a string of digits during a call (press a Speed Call Key during a call to send a multi-digit password, for instance).

To dial a stored Speed Call number:
1. Lift the handset.
2. Press a Speed Call key.

To store a Speed Call number:
1. Press \( \text{SUPERKEY} \).
2. Press \# or the No softkey until "Personal Keys?" appears.
3. Press * or the Yes softkey.
4. Press a personal key that isn't a line key.
5. Press * or the Change softkey
6. On a 5224 IP Phone only, press the Yes softkey.
7. Do one of the following:
   - To enter a new number, dial the number (press \( \text{HOLD} \) between digits to create a three-second pause during dialing; press \( \text{HOLD} \) more than once to lengthen the pause.)
   - To enter the last number dialed, press 123\( \text{REDIAL} \).
8. On a 5212 IP Phone only, press the personal key again.
9. Do one of the following:
   - To make the number private, press * or the Priv softkey
   - To keep the number visible, press \# or the Save softkey.
10. Press \( \text{SUPERKEY} \).
Speed Call – Personal (must be setup by Telcom)

To dial a stored personal Speed Call number:

1. Lift the handset.
2. Dial *33.
3. Enter an index number between 00 and 09.

To store a personal Speed Call number:

1. Lift the handset.
2. Dial *32.
3. Enter an index number between 00 and 09.
4. Dial the number to be stored (press ⊈ (HOLD) between digits to create a three-second pause during dialing; press ⊈ (HOLD) more than once to lengthen the pause.)
5. Hang up.
Handsfree Operation

To use Handsfree to make a call:
1. If you want to use a Non–Prime Line, press a Line Appearance key.
   Note: Your administrator must program Line Appearances to your phone.
2. Dial the number.
3. Begin speaking when the called party answers. Your phone's Handsfree microphone and Handsfree speaker transmit and receive audio.

To use Handsfree operation to answer calls:
1. Press the flashing line key.
2. Begin speaking. Your phone's Handsfree microphone and Handsfree speaker transmit and receive audio.

To hang up while using Handsfree operation:
- Press " ( SPEAKER ).

To turn Mute on during Handsfree operation:
- Press " ( MUTE ). The Mute key light turns ON.

To turn Mute off and return to conversation:
- Press " ( MUTE ). The Mute key light turns OFF.

To disable Handsfree operation:
- Lift the handset.

To return to Handsfree operation:
1. Press " ( SPEAKER ).
2. Hang up the handset.
Auto–Answer

To enable or disable Auto–Answer:

- Press the Auto–Answer feature key.

To enable or disable Auto-Answer on a 5224 IP Phone only:

1. Press SUPERKEY.
2. Press the No softkey until "Auto Answer?" appears.
3. Do one of the following:
   - To enable Auto-Answer, press the TurnOn softkey.
   - To disable Auto-Answer, press the TurnOff softkey.

To answer a call when you hear ringback:

- Begin speaking. Your phone's Handsfree microphone and Handsfree speaker transmit and receive audio.

To end a call, do one of the following:

- On a 5224 IP Phone only, press the Hang up softkey.
- Press CANCEL.
- Wait for the caller to hang up.
CALL HANDLING

Hold

To place a call on Hold:

- Press (HOLD).

To retrieve a call from Hold:

1. Lift the handset.
2. Press the flashing line key.

To retrieve a call from Hold at another phone, do one of the following:

- Press the flashing line key.
- Dial *78 and the number of the station that placed the call on Hold.

Mute

Mute lets you temporarily turn your phone's handset, headset or handsfree microphone off during a call.

To turn Mute on during a call:

- Press (MUTE). The (MUTE) light turns ON.

To turn Mute off and return to the conversation:

- Press (MUTE). The (MUTE) light turns OFF.

Note: If you are on a Handsfree MUTED call and you lift the handset, the handset microphone is automatically enabled and the MUTE light turns OFF.

NOTE FOR USERS ON RESILIENT 3300 ICP SYSTEMS: If your phone switches to the secondary system while your speaker or handset is muted (that is, while the Mute key is lit) the call remains muted until you hang up.
Transfer

To Transfer an active call:
1. Press \(<\text{TRANS/CONF}\>\).
2. Dial the number of the third party.
3. Do one of the following:
   - To complete the Transfer, hang up.
   - To announce the Transfer, wait for an answer, consult, and hang up.
   - To cancel the Transfer, press \(<\text{CANCEL}\>\).

To transfer an active call during headset operation:
1. Press \(<\text{TRANS/CONF}\>\).
2. Dial the number of the third party.
3. To complete the Transfer, press the Release feature key.

Conference

To form a Conference when a two–party call is already in place, or to add another party to an existing Conference:
1. Press \(<\text{TRANS/CONF}\>\).
2. Dial the number of the next party.
3. Wait for an answer.
4. Press \(<\text{TRANS/CONF}\>\).

To leave a Conference:
- Hang up or press \(<\text{CANCEL}\>\).

Conference Split

To Split a Conference and speak privately with the original party on a 5212 IP Phone (only):
1. Press \(<\text{TRANS/CONF}\>\).
2. Dial \#54.

To Split a Conference and speak privately with the original party on a 5224 IP Phone (only):
- Press the Split softkey.
Add Held (5224 IP Phone only)

To move a call on hold to another line appearance:
1. Press an available line key.
2. Press the AddHeld softkey.
3. Press the flashing line key.

To add a call on Hold to an existing conversation or conference:
1. Press the AddHeld softkey.
2. Press the flashing line key.

Swap

To call another party when you are in an established two-party call:
1. Press  TRANS/CONF.
2. Dial the number.

To alternate between the two parties:
- Press the Swap/Trade feature key or the Trade softkey.
Call Forward

Call Forward lets you redirect incoming calls to an alternate number. You can select one of the following forwarding options:

- **Always** redirects all incoming calls regardless of the state of your telephone.
- **B–Int** redirects internal calls when your telephone is busy.
- **B–EXT** redirects external calls when your telephone is busy.
- **NA–Int** redirects internal calls after several rings if you don't answer.
- **NA–Ext** redirects external calls after several rings if you don't answer.

**Note:** For information about "I'm Here?", see Call Forward – Remote.

**To program Call Forward:**

1. Press  (SUPERKEY).
2. Press # or the No softkey until "Call Forwarding?" appears.
3. Press * or the Yes softkey.
4. Press # or the Next softkey until the type of Call Forward that you want to set up appears (see above).
5. On a 5224 IP Phone only, press the Review softkey.
6. If a number is already programmed, press * or the Change softkey.
7. Press * or the Program softkey.
8. Dial the destination number.
   - If you make an error while dialing, press * or the <— softkey to correct errors.
9. Press  (DOWN) or the Save softkey.
To turn Call Forward on and off (once it has been programmed):

1. Press (SUPERKEY).
2. Press # or the No softkey until "Call Forwarding?" appears.
3. Press * or the Yes softkey.
4. Press # or the Next softkey until the type of Call Forward appears.
5. Do one of the following:
   - On a 5212 IP Phone, press * (Change) and then press # (TurnOff/TurnOn)
   - On a 5224 IP Phone, press the Review softkey. Press the Change softkey. To turn Call Forward on, press the TurnOn softkey, or, to turn Call Forward off, press the TurnOff softkey.
Call Forward – Remote (I'm Here)

To forward calls from a remote station to your current location:
1. Press (SUPERKEY).
2. Press # or the No softkey until "Call Forwarding?" appears.
3. Press * or the Yes softkey.
4. Press # or the Next softkey until "I Am Here" appears.
5. Press * or the Yes softkey.
6. On a 5212 IP Phone only, if a number is already programmed, press * twice.
7. Dial the extension of the remote station.
   If you make an error while dialing, use the # or the ← softkey to backspace and correct the number.
8. Press (DOWN) or the Save softkey.

To cancel Call Forward – Remote from the station that set the remote forwarding:
1. Lift the handset.
2. Dial #66.
3. Dial the extension of the remote station.
4. Hang up.

To cancel Call Forward – Remote from the station that was forwarded:
1. Press (SUPERKEY).
2. Press # or the No softkey until "Call Forwarding?" appears.
3. Press * or the Yes softkey.
4. Press * or the Review softkey.
5. Press * or the Change softkey.
6. Press # or the TurnOff softkey.
7. Press (SUPERKEY).
Call Forward – End Chaining

To ensure that calls do not get forwarded again by the destination number:
1. Lift the handset.
2. Dial *63.
3. Hang up.

To again allow calls to be forwarded by the destination number:
1. Lift the handset.
2. Dial #63.
3. Hang up.

Call Forward - Forced (5224 IP Phone only)

To force an incoming call to be forwarded:
• Press the Forward softkey.
Messaging – Advisory

Advisory Messaging enables you to select a notice that appears on your phone display to inform people visiting your desk of your whereabouts. Select from a variety of advisory messages, including "On vacation", "In a meeting", or "Out to Lunch".

To turn Messaging – Advisory on:
1. Press (SUPERKEY).
2. If necessary, press the # or the No softkey until "Advisory Msgs?" appears.
3. Press * or the Yes softkey when "Advisory Msgs?" appears.
4. Press # or the Next softkey until the desired message appears.
5. Press * or the TurnOn softkey.

To turn Messaging – Advisory off:
1. Press (SUPERKEY).
2. If necessary, press the # or the No softkey until "Advisory Msgs?" appears.
3. Press * or the Yes softkey when "Advisory Msgs?" appears.
4. Press * or the TurnOff softkey.
Messaging – Callback

To leave a Callback Message when you hear busy or ringback tone:
- Press \( \text{MESSAGE} \), which will activate message wait light on remote phone. Or, on a 5224 IP Phone only, press the Callback softkey, which will activate an auto callback, no visual indication on remote phone.

To respond to a message waiting condition on your 5212 IP Phone:
1. Press \( \text{MESSAGE} \).
2. Do one or all of the following:
   - To call the message sender, press \#.
   - To erase the message, press *. 

To respond to a message waiting condition on your 5224 IP Phone:
1. Press \( \text{MESSAGE} \).
2. Press the Yes softkey, and do one or all of the following:
   - To display the time the message was sent, press the More softkey.
   - To display the number of the caller, press the More softkey twice.
   - To call the message sender, press the Call softkey.
   - To delete the message, press the Erase softkey.
   - To view the next message, press \( \text{MESSAGE} \).

On a 5224 IP Phone only, you can check for messages from a remote station:
1. Press \( \text{SUPERKEY} \).
2. Press the No softkey until "Remote Msin?" appears.
3. Press the Yes softkey.
4. Dial your extension number.
5. Press the Enter softkey
6. Press the Yes softkey.
Cancel Callback - Set By Callback Softkey

To cancel a Callback:
1. Lift the handset.
2. Dial #85.
3. Dial the number of the called station.
4. Hang up.

Cancel All Callbacks - Set By Callback Softkey

To cancel all Callbacks:
1. Lift the handset.
2. Dial #84.
3. Hang up.

NOTE: The cancel callback and cancel all callbacks feature access codes have no effect if call back was set with message button.
USING ADVANCED FEATURES

Account Codes

To use Account Codes:
1. Lift the handset and dial 2.
2. Dial the Account Code digits.
3. Press #.

To enter an Account Code during a call on a 5212 IP Phone:
1. Press \[\text{TRANS/CONF}\] ( TRANS/CONF).
2. Dial 2.
3. Dial the Account Code digits.
4. Press #.
5. Press \[\text{CANCEL}\] ( CANCEL).

To enter an Account Code during a call on a 5224 IP Phone:
1. Press \[\text{SUPERKEY}\] ( SUPERKEY).
2. Press the Yes softkey.
3. Dial the Account Code digits.
4. Press the Save softkey.
5. Do one of the following:
   - For a verified account code, press the Yes softkey.

Call Park

To retrieve a call parked by the attendant:
1. Lift the handset.
2. Dial *79.
3. Dial the console ID and the Hold Slot number.
**Call Pickup**

To answer a call that is ringing at another phone in your Pickup Group:
(Group must be set up by Telcom)

1. Lift the handset.
2. Press the **Pickup** feature key or the **Pickup** softkey, or dial *71.

**To answer a call that is ringing at a station not in your Pickup Group:**
1. Lift the handset.
2. Dial #71.
3. Dial the number of the ringing station.

**Campon**

To **Campon** to a busy station:
- Press the **Wait** feature key or the **Wait** softkey.

**To retrieve a call when you hear Campon tone:**
- Press the **Trade** feature key or the **Trade** softkey.

**Do Not Disturb**

To **activate or deactivate Do Not Disturb:**
- Press the **Do Not Disturb** feature key.
Direct Paging

Direct Paging allows you to page a party through the party’s handsfree speaker. If the paged party has Off-Hook Voice Announce enabled, the page will be heard even when the party is on a handset or headset call. If the paged party has Handsfree Answerback enabled and turned on on the phone, your page automatically establishes a handsfree call with the paged party.

To page a party:
1. Lift the handset.
2. Press the Direct Paging feature key or dial *77.
3. Dial the extension number.
4. Speak to the dialed party after the tone.

How you answer a Direct Page depends on whether Handsfree Answerback is enabled and turned on at your phone. See one of the following procedures in this guide:

- Direct Paging — Handsfree Answerback Enabled
- Direct Paging — Handsfree Answerback Disabled
Direct Paging – Handsfree Answerback Enabled

When you receive a Direct Page, Handsfree Answerback automatically establishes a Handsfree call on your phone after a single burst of tone.

To turn Handsfree Answerback on:
- When your phone is idle, press \( \text{MUTE} \) once. The MUTE key light flashes to indicate that Handsfree Answerback is ON.
- When a Direct Page arrives, the MUTE key light turns OFF and a Handsfree call is automatically established.

To turn Handsfree Answerback off:
- Press the flashing \( \text{MUTE} \) key once. The MUTE key light turns OFF.
- To respond to a Direct Page when Handsfree Answerback is OFF, see "Direct Page – Handsfree Answerback Disabled" elsewhere in this guide.

Note: By default, Handsfree Answerback is turned OFF at your phone. If the \( \text{MUTE} \) key is OFF when your set is idle, Handsfree Answerback is OFF.
To answer a call using Handsfree Answerback:

To answer the Direct Page

<table>
<thead>
<tr>
<th>Phone state before Page arrives</th>
<th>To answer the Direct Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phone is idle and MUTE is flashing</td>
<td>1. Check that MUTE is OFF.</td>
</tr>
<tr>
<td></td>
<td>2. Listen for the paging party.</td>
</tr>
<tr>
<td></td>
<td>4. Lift the handset if you wish to switch from a Handsfree call to a handset call.</td>
</tr>
</tbody>
</table>

You are on a handset or headset call, and MUTE is OFF

1. Check that MUTE is flashing.

2. Press MUTE. The light turns ON solid, and you are now speaking to the paging party and have muted your handset/headset call.

3. Speak to the paging party. Press MUTE to alternate between handset/headset and handsfree calls.

You are on a MUTED handset/headset call, OR, you are on a Handsfree call

The party paging you receives a busy tone. Handsfree Answerback does not interrupt your call.

To end a Handsfree Answerback call:

- Press either [SPEAKER] or [CANCEL].

Note: When the Handsfree Direct Page call ends, the MUTE key light returns to the state it was in before the call was established.
Direct Paging – Handsfree Answerback Disabled

To turn Handsfree Answerback off, see "Direct Paging – Handsfree Answerback Enabled" elsewhere in this guide. When Handsfree Answerback is disabled on your phone and you receive a Direct Page, the Direct Page is indicated by a single burst of tone.

To answer Direct Page calls when Handsfree Answerback is disabled:

**Phone state before Page arrives:**
- Phone is idle and MUTE is OFF.

**To answer the Direct Page (indicated by single burst of tone):**

1. Check that MUTE is ON solid.

2. Lift the handset **OR** press MUTE key to answer in Handsfree mode. (The light turns OFF.)

**You are on a handset call or headset call, and MUTE is OFF**

1. Check that MUTE is flashing.

2. Press MUTE. The light turns ON solid and and you are now speaking to the paging party and have MUTED your handset/headset call.

3. Speak to the paging party. Press MUTE to alternate between handset and handsfree calls.

**You are on a MUTED handset/headset call, OR, you are on a Handsfree call**

The party paging you receives a busy tone. Handsfree Answerback does not interrupt your call.
To end a Direct Page call, do one of the following:

- Hang up the handset to end a handset call.
- Press (SPEAKER) to end a Handsfree call.
- Press (CANCEL).

Note: When the Handsfree Direct Page call ends, the (MUTE) key light returns to the state it was in before the call was established.

Reminder (5224 IP Phone only)

To program a Reminder:

1. Press (SUPERKEY).
2. Press the No softkey until "Timed Reminder?" appears.
3. Press the Yes softkey.
4. Enter the time in 24-hour format.
5. Press the Save softkey.

To view, change, and/or cancel a pending Reminder:

1. Press (SUPERKEY).
2. Press the No softkey until "Timed Reminder?" appears.
3. Press the Yes softkey.
4. Do one of the following:
   - To change the Reminder, press the Change softkey, enter the new time, and press the Save softkey.
   - To cancel the Reminder, press the Clear softkey.
   - To exit without canceling the Reminder, press (SUPERKEY).

To acknowledge a Reminder when your phone rings once:

- Press the Confirm softkey.
Headset Operation

To enable Headset Operation:
- Press the Headset feature key.

To answer a call (when Auto Answer is disabled):
- Press the flashing line key.

To hang up:
- Press \( \text{CANCEL} \).

To mute your headset microphone:
- Press the \( \text{(MUTE)} \) key. The light turns ON.

To turn mute off and return to the conversation:
- Press the \( \text{(MUTE)} \) key. The light turns OFF.
Headset Operation (with Feature Control Switch)

**IMPORTANT NOTE:** Mitel Networks Headsets with Feature Control Switch must be installed in the dedicated headset jack on the back of the phone. Installation will disable your handset microphone. Disconnecting the headset at the jack or at the quick-disconnect plug restores handset operation. If handset operation is required for an extended period of time, you should press the Headset feature key to return the telephone to handset mode.

*To enable or disable Headset Operation:*
  - Press the **Headset** feature key.

*To answer a call:*
  - Press flashing Line Appearance key
    - OR -
    - Quickly press and release the headset's feature control switch.

*To mute the headset microphone:*
  - Press and hold the headset's feature control switch.

*To hang up:*
  - Press **CANCEL**.
    - OR -
    - Quickly press and release the headset's feature control switch.

*To disable Headset Operation:*
  - Press the **Headset** feature key.
Music

To turn Music on and off on a 5212 IP Phone when the phone is idle:

- Press the **Music** feature key.

To turn Music on and off on a 5224 IP Phone when the phone is idle:

1. Press the **SUPERKEY**.
2. Press the No softkey until "Music?" appears.
3. Do one of the following:
   - To turn the music on, press the TurnOn softkey.
   - To turn the music off, press the TurnOff softkey.
4. Press **SUPERKEY**.
Group Paging / Meet Me Answer  (must be set up by Telcom)

Group Paging allows you to page a group of telephones through their built-in speakers. You can belong to as many as three paging groups with one group designated as your "prime" group.

When you need to respond to a Group Page but don't know the identity or extension number of the paging party, use the Meet Me Answer feature. You have up to 15 minutes after receiving the page to use Meet Me Answer.

To make a Group Page:
1. Lift the handset.
2. Press Direct Page or dial *77.
3. Do one of the following:
   - To page your prime page group, press #.
   - To page a specific page group, dial the page group directory number.
4. Speak to the dialed party after the tone.

To respond to a Group Page by using Meet Me Answer:
1. Lift handset.
2. Dial #77.
3. Do one of the following:
   - To respond to a page from your prime page group, press #.
   - To respond to a page from a specific page group, dial the page group directory number.
Hot Desking (must be set up by Telcom)

Hot Desking allows you to log into the telephone system from any phone designated as a Hot Desk phone. Simply log in at the phone using your assigned Hot Desk User Extension Number and the phone immediately assumes all your speed dials, features keys, call forwarding setup, and line appearances – even your language preference for the display. Any changes you make to the phone while you are logged in—for example, adding a speed dial—are saved to your personal profile. Logging in activates your profile on any phone that supports Hot Desking.

Note: All Hot Desking profiles have 13 programmable keys. If you log into a phone that has a fewer number of keys, the extra ones are "hidden". Only the use of the extra keys is lost, not the features assigned to them.

To log into a Hot Desking 5212 IP Phone (the phone must be idle):
1. Dial *51.
2. Press *.
3. Enter your Hot Desk User Extension Number
4. Press *.

To log out of Hot Desking 5212 IP Phone (the phone must be idle):
1. Dial #51.
2. Press #.
3. Press the *.

To log into a Hot Desking 5224 IP Phone (the phone must be idle):
1. Press the HotDesk softkey.
2. Press the Login softkey.
3. Enter your Hot Desk User Extension Number.
4. Press the Okay softkey.
To log out of Hot Desking 5224 IP Phone (the phone must be idle):
1. Press the HotDesk softkey.
2. Press the Logout softkey.
3. Press the Confirm softkey.

Note: Your profile can only be active on one phone at a time. If you log in from another phone without logging out from the first one, the system will automatically deactivate your profile on the first phone.

Hot Desk Remote Logout
A user who has forgotten to log out of a Hot Desking phone can be logged out using any phone that supports Hot Desk Remote Logout.

To remotely log out a Hot Desking phone:
1. Dial #52.
2. Dial the Hot Desk User Extension Number that you want to log out.
Tag Call

Tag Call allows you to signal that you are the victim of a threatening or malicious call. Using the tag, Telcom can identify the source of the call and provide this information to appropriate personnel or authorities.

**CAUTION: Tagging a non-malicious call may result in fines or other penalties.**

*To tag a malicious call:*

- Press the **Tag Call** feature key while the call is in progress. See "Feature Keys" elsewhere in this guide for information on programming a Tag Call feature key to your phone.
  - OR -
- Press `trans` (TRANS/CONF) and dial *99.

If the call was successfully tagged "Thank You" is shown on the display; otherwise, "Not Allowed" is displayed.

**Note:** Tag Call can be used on active two-party calls only. Calls on hold and conference calls cannot be tagged.
Call History

Call History keeps track of the names (if available) and telephone numbers of missed calls, answered incoming external calls, and outgoing external calls.

To display the call history, and view call detail:

1. Press the Call History feature key. The total number of missed calls is displayed in brackets ( ), the number of new missed calls is indicated with a *.
2. To browse through the list of missed calls, press * or the Yes softkey, followed by the (UP) and (DOWN) keys to scroll through the list.
   To view answered or outgoing calls, press # or the No softkey (once for Answered, twice for Outgoing), followed by the (UP) and (DOWN) keys to scroll through the list.
3. To view the number of the call, press the # or Options softkey. When the Options screen is displayed, press the * or Details softkey to display the number. Press the # or Next softkey to display the call time and date.
To return a call:
1. Display the call you want to return.
2. Do one of the following:
   - If the call is internal, and the caller name is known, press * or the Call softkey. For unknown numbers, the Call option is not displayed.
   - If the call is external, and you normally need to precede external calls with a digit such as 8, the system will be unable to complete the dialing automatically. When this happens, you can edit the dialed digits manually by pressing # or the ← (Clear) softkey. Use the # or ← (Clear) softkey to delete the left-most digit, and then type the digits to insert them. When you have the dial string edited to suit your needs, press the * or Call softkey to dial the number.

To delete all missed, answered, or outgoing call logs:
1. After selecting the type of logs you wish to delete, press # or the Delete All softkey.
2. Confirm that you do want to delete all items by pressing * or the # softkey.

To delete a particular call from the call log:
- With the call log that you want to delete displayed, press # twice or press the Delete softkey.
Release

Release lets you disconnect from an attempted Call Transfer or Conference Call without hanging up the handset. Release is useful when you encounter a busy or unavailable party.

To release from an attempted transfer or conference call:

- Press the Release feature key or the Release softkey.
