Name (please print): ____________________________________________________________________________

(Last)                                                     (First)                                                (Middle)

Student Number: ________________________________

Primary Major: _____________________________ Expected Major Completion Term: _________________

Required Courses – 3 credits

_____ GE3040  Fundamentals of Geophysics (3)

Elective Courses – 13 credits

_____ GE3900  Field Geophysics (5)
_____ GE4400  Near Surface Geophysics I (3)
_____ GE4410  Near Surface Geophysics II (3)
_____ GE4500  Plate Tectonics and Global Geophysics (3)
_____ GE4600  Reflection Seismology (3)
_____ GE4610  Formation Evaluation and Petroleum Engineering (3)
_____ GE4922  Geophysics Seminar (3)
_____ GE4933  Special Topics in Geophysics (1-3)
_____ GE4962  Independent Geophysics Research Project (1-9)

Credits Required = 16
Total Credits _______

The following courses listed in this minor have prerequisites (shown in parenthesis) that are not included above:
GE4600 (GE3040), GE4410 (PH2200), GE4500 ((MA3150 or MA3160) and PH2200 and (GE2000 or GE2200)), GE3900 (GE3040), GE4400 (PH2200), GE3040 (PH2200)
