Adventures in STEM

Getting students fired up about STEM

Our state and nation depend on young people with the high-tech skills needed to grow our economy and address global challenges. The Dow Chemical Houston Area Science and Engineering Festival can get them started on the path to careers in science, technology, engineering, and mathematics (STEM) through fun, fast-paced, hands-on activities and one-of-a-kind exhibitions.

Mind Trekkers

The festival will feature Michigan Technological University’s Mind Trekkers, a nationally acclaimed science and engineering road show that inspires youth to explore the excitement of STEM. Students participate in more than 125 innovative and engaging STEM-related activities. Each Mind Trekkers activity is hosted by a Michigan Tech student who acts as a near-peer role model for the young participants.

Now we need your help to get middle school students fired up about STEM!

As a festival sponsor, you will shape our country’s workforce by encouraging youth to pursue education and careers in science and engineering. Your investment will allow students and families to attend this life-changing event free of charge.

Sponsors will be recognized at the event and in promotional materials, press releases, and digital media.

To become a sponsor, contact
Cody Kangas at 906-487-2219 or ckangas@mtu.edu
