ANIMAL CARE FACILITY: LANGUAGE PROFICIENCY POLICY

Policy Statement: A demonstration of English proficiency is required for access to the Animal Care Facility. A lack of language proficiency (verbal or written) is a concern for both personnel safety and animal welfare.

Policy Requirements: All degree-seeking graduate international students are required to submit proof of English language proficiency. ACF staff will evaluate any personnel seeking access who has not been required to submit proof of English language proficiency.

- This can occur as a separate test or as part of the initial access meeting.
- The Animal Care Facility reserves the right to deny access.
- Personnel can submit proof of tutoring with the English Language Institute in order to be reevaluated.
