Welcome to Orientation 2017

Congratulations on becoming a member of the first-year class at Michigan Technological University, and welcome to our community! We share five values that will provide a framework for your Michigan Tech experience.

**Community:** During Orientation, you will meet other members of the Michigan Tech community. It is important that you treat one another with kindness, thoughtful consideration, and respect. Be generous in your attitude with one another and support your peers. You will also have the opportunity to learn more about the local Houghton community that you will call home during your time at Michigan Tech.

**Scholarship:** Academic success is central to your experience at Tech. You will learn about campus resources and hear tips from faculty, staff, and experienced students that will help you excel in your studies.

**Possibilities:** At Michigan Tech, opportunities are everywhere. You have the ability to study abroad, join clubs, research, and solve the world’s problems. Learn about how you can use your skills, knowledge, and potential to explore possibilities.

**Accountability:** You are in college, which means you are now responsible for your well-being and success. We will do our best to support you, but you need to act with integrity, honesty, and diligence as you pursue your education.

**Tenacity:** We live in the Upper Peninsula; you have to be a little tenacious to come here. Now is the opportunity to develop the confidence and skills to survive and thrive through even the most challenging obstacles.
ORIENTATION EXECUTIVE STAFF

Orientation Executive Staff is a group of student staff that dedicate their summer to planning a weeklong Orientation for nearly 1400 first-year students. Their passion for seeing students succeed is next to none. Without them, Orientation Week would be impossible.

“

I am a part of Orientation Executive Staff as Training Coordinator. I am at Michigan Tech to study biology, and I chose to come here for the stunning natural areas the Keweenaw provides, and the research opportunities along with them. I am constantly in pursuit of understanding the unique diversity and intricate systems of living things and ecosystems, especially those of the Great Lakes Region. I hope through Orientation I can inspire a love for learning and introduce incoming students to the variety of opportunities this unique place holds.”

- Andie Norton, Training Coordinator

“

I’m the Logistics Coordinator on this year’s Orientation Executive Staff. When I arrived at Tech, I was the only person double-majoring in theater technology and mechanical engineering. Despite the odd combination, I will graduate having had three internships in the industry, including experience working on machinery for Cirque du Soleil, Disney, and more. I won’t say that anything is possible, but my experience at Michigan Tech makes me have to think twice. My goal for Orientation is to show all the new students how inspiring this place can be.”

- Jason Scott, Logistics Coordinator

“

I am a part of the Orientation Executive Staff as the Program Coordinator. As a psychology major at Michigan Tech, I have had great opportunities and experiences such as interning in a community transition class for adults with moderate cognitive impairments, and volunteering as a crisis line specialist. I even became a Big Sister during my time here. Michigan Tech and the Houghton-Hancock community have so much to offer students. Through Orientation, I hope to help guide students to step out of their comfort zone and become a part of our community.

- Neffertia Tyner, Program Coordinator
Studying materials engineering at Tech is incredibly interesting to me, but what really keeps me going is the outdoors. I work for Michigan Tech’s Outdoor Adventure Program and love spending my free time hiking, exploring, and taking photos of the wonderful Keweenaw and the rest of Upper Michigan. This summer I’ve been researching chemical properties at a local business in Hancock, just across the bridge.”

ORIENTATION CHECKLIST

Use this handy checklist to stay on track during the first few days of Orientation Week.

☐ **Move In**

There’s a 20-minute limit for unloading all your belongings into your residence hall in order to keep everything running smoothly.

After unloading, please park student cars in Lot 21. Visitors and parents can park in Lot 10.

☐ **HuskyCard**

Your HuskyCard is your official Michigan Tech photo ID. It grants access to all campus buildings, meals, and events, so make sure you keep it on you at all times.

On Saturday, pick it up in the MUB Ballroom (building 34). You’ll need a photo ID and your Michigan Tech M-Number, found on the cover of this booklet. If you didn’t submit a photo online, you can have it taken there. After Saturday, visit the IT Service Center in the Van Pelt and Opie Library (17).

☐ **Parking Decal**

If you have a car on campus, bring a valid photo ID and your current vehicle registration to finalize your parking arrangements. On Saturday, visit the MUB Ballroom (34). After Saturday, visit the Administration Building (1), Room 100.

☐ **Bike Registration**

Register your bike online at: [mtu.edu/publicsafety/crime/bicycle](http://mtu.edu/publicsafety/crime/bicycle)

This helps return lost or stolen bikes to their proper owners. A decal will be mailed to the address you provide, which you should affix to your bike frame.

☐ **Connect Your Computer**

If you need assistance, visit the IT Service Center in the Van Pelt and Opie Library (17) or call 906-487-1111.

☐ **Make Introductions**

Introduce yourself to your Resident Assistant (RA) or Commuter Assistant (CA).

☐ **Get Excited for Orientation!**

Look for your team assignment on the front of the booklet, and get ready to have an awesome time.

**Notes:**
I’m a senior year electrical engineering student. I transferred to Michigan Tech two years ago from China. I chose Michigan Tech because I like the beautiful and fascinating landscapes in the Houghton area, and it gave me chances to meet interesting people from all around the world. I like taking pictures and I’m currently taking photos for Michigan Tech’s newspaper, The Lode. I love photographing people and scenes on campus. Here’s me on the top left, and some of my photos.”

**PLACEMENT TESTING**

**Modern Language Placement Tests**

*French, German, and Spanish*

These tests are required for students who have prior experience in French, German, or Spanish. It ensures placement into the appropriate language level/course. You are encouraged to pre-register for the exam at the following link:

mtu.edu/humanities/undergraduate/modern-languages/register

You may also register onsite (please have your ID available).

**Spatial Visualization Test**

All engineering and engineering management students are required to take this test. You must bring your Michigan Tech email address, M-number, and a #2 pencil. It determines placement in First-Year Engineering courses.

**ALEKS Math Placement Test**

The ALEKS placement assessment will be available for students who did not complete the assessment(s) during the regularly scheduled time. Students will need to bring a credit card with them to pay the $25 fee for the test.

---

**Intensive English as a Second Language (IESL)/TOEFL**

Students enrolled in English as a Second Language (ESL) are required to take the Test of English as a Foreign Language (TOEFL) before registering for classes. Bring your M-number and a form of photo ID with you to the test.

I will be a fourth-year math and statistics major this fall. I have returned as an OTL because I really enjoy being able to introduce the new students to campus. I recently returned home from studying abroad in Germany. This experience has changed my scope of the world and it will be an adventure I will never forget. Michigan Tech's Study Abroad Program is something I think everyone should try."

9:05-9:55 p.m.
1:05-1:55 p.m.
*Fisher (15), Room 135*

What do a fest, tent, and food have to do with finding a job? Career Services is so much more than resumes and interviews. Yes, you haven’t started class yet, but we are valuable to you, even now. Come and hear the stories of current Huskies and explore what we offer specific to first-year students.

**Student Success and the MTMC**
9:05-9:55 a.m.
1:05-1:55 p.m.
*Fisher (15), Room 139*

No matter your skill level, the Multiliteracies Center can help you improve your class projects, papers, and presentations, as well as your career documents. The Multiliteracies Center is a free resource available to all students, faculty, and staff, in any field of study. The center strives to help writers and presenters to communicate across a variety of cultures and modes, including written, digital, and verbal text forms. This presentation will explain how the Multiliteracies Center can help first-year students succeed in Michigan Tech classes and beyond.

**Stress and Anxiety Management**
9:05-9:55 a.m.
1:05-1:55 p.m.
*Fisher (15), Room 129*

To do well at Michigan Tech, you need to learn how to operate smoothly in a high-stress environment. Attend this session to begin building the skills you need to remain calm and focused while taking important exams or giving class presentations.

**Intro to the Learning Centers**
11:05-11:55 a.m.
12:05-12:55 p.m.
*Fisher (15), Room 138*

Michigan Tech Learning Centers will give you an edge in making the transition to college. The coaches working in the Learning Centers have taken or are familiar with your courses and can guide you in what’s expected. It’s been proven that students who use the resources at the learning centers get better grades!

**Things to Do While Studying Abroad**
11:05-11:55 a.m.
12:05-12:55 p.m.
*Dow (8), Room 641*

In this BuzzFeed style presentation, you will hear from Michigan Tech study abroad alumni about the 15 things you can do while studying abroad. Whether it’s extreme sports, trying new foods, or exploring new lands, there is so much you can do abroad!
In Team Meeting 5, you learned about Day Zero classes. Pages (14 and 15) have information about Thursday and Friday’s Day Zero events that are available if you do not have scheduled classes at that time.

I Never Really Had to Study Before: Now What?
1:05-1:55 p.m.
2:05-2:55 p.m.
Fisher (15), Room 138
Never spent much time studying? Not sure what you need to do to be successful at Michigan Tech? Learn strategies from the staff of the Waino Wahtera Center for Student Success on how to study, manage your time, use resources, and be successful at Michigan Tech.

I grew up in a small town in India and lived in Canada before coming to Michigan Tech for my second degree in management with a concentration in entrepreneurship. I have learned a lot and grown by being involved with on-campus organizations and Delta Zeta National Sorority. This summer I’m working for Jackson National Life Insurance as a software developer for their Michigan Tech SmartZone office in Houghton.”

I'm a fourth-year chemical engineering student from Colombia and captain of the women’s tennis team. One of my favorite things about Tech is that no matter how cold it is outside, there’s always something to do, wonderful places to explore, and great people to meet.”
- Natalia Parra, Student

Signed Up for an Orientation Trip?
You have received an email confirmation in your HuskyMail as well as a Google Calendar meeting invite.

During my time at Michigan Tech, I’ve learned first hand why “Possibilities” is one of our core values. I’ve had the opportunity to work intently alongside faculty and staff from the Dean of Students Office, the Visual and Performing Arts Department, Michigan Tech IT, and Michigan Tech Athletics. The friends and alumni that I’ve met along the way have not only taught me valuable skills, they've also opened doors for me to work at the top companies in our industry. I can tell you from experience that Michigan Tech is truly a place where anything is possible.”
- Eric Smith, Student
