About this Document

To protect Michigan Technological University’s intellectual property, and to align with the visual identity standards of the University, student organizations and clubs must follow the guidelines outlined in this document.

Additional Resources

Michigan Technological University encourages and invites student organizations to include the University logo on posters/fliers/apparel/etc. that they create. Because it is important that the University be represented consistently whenever and wherever our name appears, student organizations are required to follow the guidelines outlined here. This will protect Michigan Tech’s intellectual property and align the visual identity standards of the University.

All guidelines in relation to the Michigan Tech brand still apply. For more information on the Michigan Tech Brand please visit:
