A. **LIMITATIONS:** Use of the rates set forth under Section I is subject to any statutory or administrative limitations and is applicable to a given grant, contract or other agreement only to the extent that funds are available and consistent with any and all limitations of cost clauses or provisions, if any, contained therein. Acceptance of the rates agreed to herein is predicated upon all of the following conditions: (1) that no costs other than those incurred by the grantee/contractor were included in this indirect cost pool as finally accepted and that such costs are legal obligations of the grantee/contractor and allowable under governing cost principles; (2) that the same costs that have been treated as indirect costs are not claimed as direct costs; (3) that similar types of costs have been accorded consistent accounting treatment; and (4) that the information provided by the grantee/contractor, which was used as the basis for acceptance of the rates agreed to herein and expressly relied upon by the Government in negotiating and accepting the said rates, is not subsequently found to be materially incomplete or inaccurate.

B. ACCOUNTING CHANGES: The rates contained in Section I of this agreement are based on the accounting system in effect at the time the agreement was negotiated. Changes to the method(s) of accounting for costs which affect the amount of reimbursement resulting from the use of these rates require the written approval of the authorized representative of the cognizant negotiating agency for the Government prior to implementation of any such changes. Such changes include but are not limited to changes in the charging of a particular type of costs from indirect to direct. Failure to obtain such approval may result in subsequent cost disallowances.

C. USE BY OTHER FEDERAL AGENCIES: The rates set forth in Section I hereof were negotiated in accordance with and under the authority set forth in OMB Circular A-21. Accordingly, such rates shall be applied to the extent provided in such circular to grants and contracts to which OMB Circular A-21 is applicable, subject to any limitations in part A of this section. Copies of this document may be provided by either party to other Federal agencies which have or intend to issue or award grants and contracts using these rates or to otherwise provide such agencies with documentary notice of this agreement and its terms and conditions.

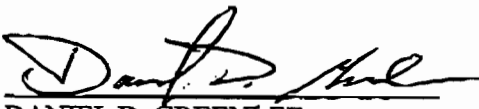

D. PREDETERMINED RATES: The predetermined rates set forth in Section I of this agreement are not subject to adjustment in accordance with the provisions of OMB Circular A-21, subject to the limitations contained in Part A of this section.

E. SPECIAL REMARKS: The purpose of this agreement is to establish Fringe Benefits Rates for the period of 1 July 2005 through 30 June 2006. These rates are based on Michigan Technological University's proposals dated 28 January 2005. The Government's agreement to the rates in Section I, based on the accounting systems and allocation methodologies in effect at the time this agreement was negotiated, does not represent an agreement that these systems and methodologies are accepted for FY 2006 or any subsequent fiscal year's rate negotiations.
