University

# College of Business

The College of Business at Michigan Tech is designed for a technology-driven world. Our STEM-focused programs combine core business skills with data analytics, technology, and quantitative problem-solving, giving you a competitive edge in today's job market. Upon graduation, you'll be ready to lead teams, analyze complex decisions, and drive innovation across any industry.

## Transferring to Michigan Tech

Students are encouraged to transfer to Michigan Tech at any time. There are no minimum or maximum credits required to apply as a transfer student. We consider you a transfer student once you've taken at least one college course after high school graduation. (Early/middle college students are considered first-year students for admission and scholarship purposes.)

## Associate's Degree

With an associate's degree, the total time to your MTU degree will depend on the type of credits you are transferring. For Michigan residents, check out the MiTransfer Pathways available at [mtu.edu/registrar/students/transfer/pathways](https://mtu.edu/registrar/students/transfer/pathways)

## Michigan Transfer Agreement

Students who have completed the Michigan Transfer Agreement (MTA) have completed the equivalency of the Michigan Tech Essential Education program. Learn more at [mtu.edu/essential-ed](https://mtu.edu/essential-ed)

## Course Equivalencies

Use our course equivalency tool to learn how courses will transfer from other colleges and universities. Submit a course syllabus to evaluate an unlisted course for credit.
