

Cooperative Education Program Undergraduate Student Information & Checklist

Communicate with a Financial Aid representative to discuss loans, scholarships, other financial aid, and the impact of co-op earnings on future aid. Either send this completed form to Financial Aid for electronic signature or forward an email confirmation from Financial Aid to co-op@mtu.edu.

Financial Aid representative Signature (electronic signature accepted)

Date

Communicate with your academic advisor to discuss how co-op will affect your degree program, obtain permission, and determine whether or not co-op credits can be used to satisfy the requirements for your degree program. Send this completed form to your advisor for electronic signature.

Advisor Acknowledgment and Concurrence:

By signing I acknowledge that I have communicated with the above-named student and discussed how this employment relates to their academic program and applies to their academic plan. To my knowledge they have not completed degree requirements, defended or are using this co-op to delay completion of studies to gain experience.

Advisor Signature (electronic signature accepted)

Next Steps:

Co-op is a special permission course. Career Services registers you after the following information has been submitted via email to co-op@mtu.edu. You will receive a confirmation email when you are registered. Please note this may take 7-14 business days.

- A copy of your offer letter from your employer that includes:
 - the term "co-op" or "cooperative education" ("Internship" is acceptable if company signs the *Cooperative Education Agreement*.)
 - a start date that is **no later than Monday of week 2** of the semester in which you are working (**non-negotiable**).
 - an end date that is **no earlier than the last day of regular classes** for the semester in which you are working.
- A completed "Cooperative Education Agreement" **signed by both you and your employer**. This form must be completed and submitted before you begin your co-op.

Additional Things to Do:

- Understand that by enrolling in co-op credits you are enrolled in an online course through Canvas and you are responsible for all required assignments. Check Canvas for details. The course starts when the term does - *not when you start working*.
- Change your mailing address to your new co-op address on the Registrar's website.
- Pay for your co-op credits on time or your schedule will be dropped. Contact Accounting Services for billing questions: 906-487-2234 or 800-576-6484 or email: student-billing@mtu.edu.

International Students Only:

Once registered by Career Services, you will receive a registration confirmation with a link to a Google form for CPT and a new I-20. International Programs & Services will process your I-20 and notify you when ready.

How many credits will you have at the end of this current semester? _____

of CPT days already used: _____

I understand that all co-op registration paperwork must be received prior to the University's Last Day to Add Courses Without Instructor Approval. See Registrar's web page for specific dates: www.mtu.edu/registrar.
