

KRC FTP file download access has been set up for Next Generation NATO Reference Mobility Model

You can use a stand-alone FTP client (FileZilla, WinSCP, WS_FTP, etc.) to FTP files to/from:

Host: "nrmm.mtukrc.org"

Login: ng-nrmm {all lowercase}

Password: thread\$panel {all lowercase}

Alternately, you can use the FTP access available in Internet Explorer (Select View/Page > "Open Site in Windows Explorer") or Firefox with the "FireFTP" add-on at the following link:

[ftp://ng-nrmm:thread\\$panel@nrmm.mtukrc.org](ftp://ng-nrmm:thread$panel@nrmm.mtukrc.org)

To download an individual file to your local computer, right-click on a file name and select "Save File/Target As:" from the drop-down menu to save it locally.
