Congratulations!

*Class of 2019,
congratulations on
your most recent
accomplishment.*

*We know the road
leading to today's
celebration was beset
with a few hard turns
and perhaps even dead
ends. But, through it
all you persevered and
remained steadfast in
your goal—a symbol of
your determination and*

*the value you place on your Michigan Tech education.
I hope you look back with pride on your journey up to
this point.*

*As you prepare for life's next adventure, we have
every confidence you will make the most of your
education from Michigan Tech; that you will keep alive
the inquisitiveness, curiosity, and tenacity acquired in
pursuit of your degree. We trust you will be of service
to others; that you will lead in your community and
profession. Always remember that you are now part of
a remarkable legacy 134 years in the making. Always
remember to reach out and give back.*

*Michigan Tech's faculty, staff, and students join me
in extending our very best wishes for your continued
success. Again, congratulations on this very special day.*

Col. Gregory H. Johnson
USAF Retired

Our Commencement speaker, Col. Gregory H. Johnson (USAF Ret.) is a former, astronaut, test pilot, and combat fighter pilot who served in the Middle East.

Johnson is a graduate of the US Air Force Academy, has a Master of Science in Flight Structures Engineering from Columbia University and an MBA from the University of Texas.

In 2006, after years of intensive training, he was selected to pilot the Space Shuttle *Endeavour* on a mission to help assemble the International Space Station (ISS), launching in March 2008. Three years later, Johnson piloted *Endeavour*'s final flight to ISS, the second to last Space Shuttle flight ever. He has spent more than 31 days in space, orbited the earth nearly 500 times, and traveled more than 12.5 million miles.

Prior to joining NASA, Johnson had been deployed to Saudi Arabia where he flew 34 combat missions in support of Operation Desert Storm. On his second deployment, he flew an additional 27 combat missions in support of Operation Southern Watch.

Johnson lives part time in Traverse

Col. Gregory H. Johnson

City, Michigan, where he is an aerospace and youth development consultant for Newton's Road, a non-profit that works with regional partners to support and increase access to learning opportunities in STEM. He is also the managing director of the Traverse City Space Accelerator.

Student Speaker

Monica Brechting

When nearly a dozen Michigan Tech grads from the Grand Rapids area get together, you could consider it an alumni event. However, today's student speaker, Monica Brechting, calls it a family reunion.

In high school, when Monica decided on engineering as a career path, her choice of Michigan Tech was really a foregone conclusion. The Grand Rapids native, who will receive a Bachelor of Science in Mechanical Engineering, is the 12th Husky in her family. The count so far is one brother, one sister, a brother-in-law, three uncles and five cousins.

Family, and in particular family history, are important to Monica, who says a relative came to the Copper Country years before there was a Michigan Tech. "My grandfather, three generations removed, left Germany in 1857 to settle in Calumet." She says he worked in the mines for 11 years before moving to the Grand Rapids area to start a fruit and vegetable farming operation. After 150 years, the farm is still there—and it's still owned by her family.

"Growing up on a farm taught me

the value of hard work," she says. "I like working with my hands, so engineering made sense to me." Life on a farm developed a work ethic in Monica that served her well here in Houghton. She has been active at St. Albert the Great University Parish, played piccolo in the Huskies Pep Band, and was a member of the Robotics System Enterprise as team lead for her Capstone project, an underwater soil sampler. She also served as president of the Michigan Tech Chapter of Silver Wings, a national organization dedicated to creating proactive, knowledgeable, and effective civic leaders through community service and education about national defense.

As today approached, Monica says she pondered the question "What makes a Husky?" She researched her talk by asking friends what made them know they belonged here. "This is my love letter to Michigan Tech," she says. "It takes a unique person to thrive here, but if you're that type of person, you'll fall in love."

She says "I wrote this speech because it's the speech I wanted to hear."

Monica says she was a bit unsure of herself when she first got here, but eventually hit her stride. "It took me two-and-a-half years, but I found my Husky family at the passionate community of St. Als. They make me strive every day to be the best I can be at whatever I try."

Monica is graduating today as an engineer. And with a 3.52 GPA, she's doing so with honors.

Michigan Tech has become a significant part of Monica's family history and she will be sad to leave it. "I am excited to move back closer to home, especially in the Grand Rapids area." It's not surprising, after all it's where her roots are.

Achievement. Success. Congratulations!

You're a Michigan Tech Graduate!

Today you achieved one of life's milestones. Many people have invested in your success—your family and friends, faculty and staff, and Michigan Tech alumni and friends. We are all so proud of your accomplishments.

Today you are starting a new adventure and we are here to help you stay connected. MyMichiganTech will become your alumni portal, a place to update your information and build your Husky network with the alumni directory.

- Connect with alumni online through the Alumni and Friends Facebook, Instagram, or LinkedIn pages, with regional chapters, or at your company.
- Keep using your Michigan Tech email and take advantage of continued support from Career Services.
- Hear about campus and alumni news through the *Michigan Tech Magazine*, *Research Magazine*, and our alumni newsletter.
- Continue your broomball career! Bring your team and compete in the annual Alumni-Student Broomball Invitational during Winter Carnival.

In the coming months, we will be in touch with you to learn more about your time after graduating from Michigan Tech and to invite you to alumni events in your area.

Where will you take your Husky flag? Don't forget to send us photos at alumni@mtu.edu or use #MTUFlag on social media.

Alumni House

Michigan Tech has a proud tradition of “Huskies helping Huskies.” As a new graduate, we may contact you and ask you to share your Michigan Tech experience with current or incoming students. We hope you will consider being a regional volunteer, as well as opportunities to share your financial resources to support future Huskies.

When you return to campus for a visit, please stop by the Alumni House. We would like to say hello, catch up with you, and provide you with a free parking pass and a discounted SDC day pass.

And, remember, once a Husky, always a Husky. We warmly welcome you to the Michigan Tech Alumni and Friends family!
