

About MICUP

In the MICUP Summer Program, you will learn by doing — the best approach to succeeding in STEM disciplines. MICUP can show you what it is like to live and study on a university campus, how to navigate the challenges, and how to make the most of opportunities.

Why MICUP?

Engage in Research

MICUP Scholars spend 7-weeks during the summer engaging in research experiences with MTU faculty and other experts in their field of interest. STEM not your thing? Our research opportunities span many fields and majors.

Explore the Keweenaw

The rural campus is situated just miles from Lake Superior in Michigan's Upper Peninsula, offering year-round opportunities for outdoor adventure. The area's waters and forests offer opportunities for hiking, biking, paddling, and more.

Experience Michigan Tech

Michigan Technological University is a public research university in Houghton, Michigan. It is home to more than 7,000 students from 55 countries around the world. We offer more than 120 undergraduate and graduate degree programs across various fields.

As a MICUP Scholar you will receive:

- housing and meals in a Michigan Tech residence hall
- a scholarship for a 1-credit university summer course
- a \$2500 stipend for your participation in research
- an opportunity to develop a professional research poster alongside a faculty member
- greater earning potential. The Bureau of Labor estimates that people with a bachelor's degree earn about 20 percent more per week than those with an associate's degree.
