Total credits: 128 + 3 units co-curricular activities

This is a suggested plan which can vary by individual student, and which shows a path through the program which avoids time conflicts. Students are responsible for monitoring degree progress and meeting degree requirements. Refer to the degree audit.

- (1) Follow university General Education CORE and HASS requirements. All students must add 3 units of co-curricular activities.
- (2) May substitute MA2320 for MA2321 and/or MA3520 for MA3521. MA2320 and MA3520 are taken in separate semesters. MA2521 or MA3520 is a prerequisite for EE 2112.
- (3) Choose one course from the list of SELECT Approved Electives, courses recommended by industry advisors to broaden knowledge. (Refer to the degree audit)
- (4) Choose from a wide-ranging list of math, science, and engineering courses. See audit for details.
- (5) Approved Engineering Design courses: (EE 4901 & EE 4910) or (MEEM 4901 & MEEM 4911) or Enterprise (ENT3950 & ENT3960 & ENT 4950 & ENT 4960). Recommended enterprises include: BMSE, OSHE, WCE, RSE and Aerospace.
- (6) Choose EE courses offered among various areas of specialization (focus areas). Mix and match as the student likes.
