

Hazardous Waste Label

Waste name:

Chemical components and concentrations
(all chemical components **must be spelled out**):

Concentrations are:

amounts where units = _____
percentages
ppm

Chemical Components	Concentration

Is this waste is an unused chemical, off-spec chemical, or spill residue **AND** does it have a **SOLE ACTIVE INGREDIENT** found in tables 205a, b, or c.

NO – complete checklist on the right.
YES – fill in appropriate “P” or “U” code below and complete checklist on the right.

Code _____

Based on this code circle **Toxic** / **Ignitable**

Hazardous waste based on:

Check all appropriate boxes

Chemical manipulation of SPENT solvents (See table 203a):

F001 (Toxic)
F002 (Toxic)
F003 (Ignitable)
F004 (Toxic)
F005 (Ignitable, Toxic)

Hazardous characteristic:

D001 Flammable (Ignitable)
(FP<140°F)

D001 Oxidizer

D002 (Corrosive)
(pH ≤ 2 or pH ≥ 12.5 or corrosive to steel)

D003 (Reactive)

Other characteristics D004-D0043 (Toxic)
(See table 201a)

D _____

D _____

D _____
