PricewaterhouseCoopers LLP 333 Bridge Street, N.W. Suite 505 Grand Rapids MI 49504-5356 Telephone (616) 458 7700 Facsimile (616) 454 6375

Report of Independent Accountants

To the Board of Control Michigan Technological University:

In our opinion, the accompanying combined statements of financial condition and the related statements of revenues, expenditures and changes in fund balance and of current funds revenues, expenditures, transfers and changes in fund balance present fairly, in all material respects, the combined financial position of Michigan Technological University (the "University") at June 30, 2000 and 1999, and the revenues, expenditures, transfers and changes in fund balance for the years then ended in conformity with accounting principles generally accepted in the United States. These financial statements and supplementary information are the responsibility of the University's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 11, 2000 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

Our audits were made for the purpose of forming an opinion on the basic combined financial statements taken as a whole. The schedule of expenditures of federal awards (pages 5 through 39 of the accompanying OMB Circular A-133 Supplementary Financial Reports) is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, and is not a required part of the basic combined financial statements. This information has been subjected to the auditing procedures applied in our audits of the basic combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic combined financial statements taken as a whole.

Pucuratulouse Coopers LLP

(1) BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared in all material respects in accordance with accounting principles outlined in the *Manual for Uniform Reporting-State of Michigan Colleges and Universities*, as revised, and the American Institute of Certified Public Accountants' guide, *Audits of Colleges and Universities*, and by the *Governmental Accounting Standards Board*. The combined statements represent the aggregation of individual funds as described in the "Fund Classifications" section below. All interfund accounts have been eliminated in the combined financial statements.

Reporting Entity

Michigan Technological University (the "University") is an institution of higher education and is considered to be a component unit of the State of Michigan because its Board of Control is appointed by the Governor of the State of Michigan. Accordingly, the University is included in the State's financial statements as a discrete component unit. Transactions with the State of Michigan relate primarily to appropriations for operations, grants from various state agencies and payments to State retirement programs for University employees.

The financial statements of all controlled organizations are included in the University's financial statements. Organizations which are not controlled by the University, such as the Michigan Tech Fund and booster organizations, are not included in the University's financial statements.

Fund Classifications

The current funds consist of the General, Designated (use restricted by University policy), Auxiliary Activities, Retirement and Insurance (used to account for employee benefits and risk financing activities) and Expendable Restricted Fund (use restricted by donor or supporting agency). These funds are used to account for transactions related to instructional and academic programs (including restricted purpose contracts and grants, research, extension and departmental programs) and the auxiliary activities which provide services to the student body, faculty, staff and public. The accompanying statements of current funds revenues, expenditures, transfers and changes in fund balances are statements of financial activities of the current funds and do not purport to present the results of operations or the net income or loss for the period.

The other funds and their functions are described as follows: (1) the Student Loan Fund is used to account for transactions related to loans to students, (2) the Plant Fund contains the transactions relating to investment in physical properties, indebtedness incurred in the financing thereof and reserves for maintenance and replacement and (3) the Agency Fund is used to account for amounts withheld from payrolls, employer portions of payroll taxes and various employee benefits and amounts held in custody for students, University-related organizations or others.

Summary of Significant Accounting Policies

Accrual Accounting

The accompanying financial statements have been prepared on the accrual basis, except for the following, which are common practices in colleges and universities: (1) interest on student loans is recognized when received, (2) interest expense is recognized when paid, (3) gifts, grants and pledges are recognized when received or when billable, (4) Expendable Restricted Fund revenue is recognized only to the extent expended, (5) State appropriations are recognized as appropriated by the State for the specified fiscal period, and (6) revenue and expenditures of an academic term are reported in the fiscal year in which the program is predominantly conducted. For the year ending June 30, 2000, the University recognized \$2.4 million in revenue and \$1 million in expenditures relating to its summer session. For fiscal year 2001, the University is changing from quarters to semesters.

The accrual basis of accounting provides that expenditures include only amounts associated with goods and services received and that liabilities include only the unpaid amounts associated with such expenditures. Accordingly, outstanding purchase orders and commitments not reported in the financial statements totaled \$8,919 (in thousands) and \$21,346 at June 30, 2000 and 1999, respectively.

Income Taxes

The University is classified as a political subdivision of the State of Michigan under Internal Revenue Code Section 115(A) and is therefore exempt from Federal Income Taxes. Certain activities of the University, to the extent profitable, may be subject to taxation as unrelated business income.

Cash and Cash Equivalents

The University considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

Inventories

Inventories are valued at the lower of cost or market determined on a first-in, first-out basis.

Investments and Marketable Securities

Investments are valued at market.

Capitalized Interest

During fiscal year 2000, total interest cost was \$949 (in thousands), of which \$303 was included in investment in plant and \$646 was included in expenditures.

Property, Plant and Equipment

Physical properties are stated at cost when purchased. Other acquisitions are stated at appraised value on date of receipt. Amounts expended directly from current funds for equipment or other capital additions are included in expenditures or transfers of such funds and are capitalized in the Plant Fund. Repair and maintenance and equipment replacement reserves have been established to provide for significant repair and maintenance costs to residences and certain other facilities.

Revenue Recognition

The Expendable Restricted Fund revenues and expenditures for 2000 and 1999 each include approximately \$12.0 and \$11.4 million, respectively, relating to funds received directly by the University from the federal government under the William D. Ford Federal Direct Loan Program.

Depreciation

Depreciation is provided for physical properties on a straight line basis over the estimated useful life of the property, as follows:

| Classification | <u>Life</u> |
|--------------------|-------------|
| Land Improvements | 20 years |
| Buildings | 40 years |
| Computer Equipment | 5 years |
| Equipment | 7 years |
| Library Books | 5 years |

Reclassifications

Certain fiscal year 1999 amounts have been reclassified to conform with the fiscal year 2000 financial statement presentation.

(2) CASH AND INVESTMENTS

Authorizations: The University investment policies are governed and authorized by University Bylaws and the Board of Control.

The University utilizes the "pooled cash" method of accounting for substantially all of its cash and cash equivalents. Investment policies for cash and cash equivalents, as set forth by the Board of Control, authorize the University to invest, with limitations, in commercial paper rated within the two highest classifications of prime as established by at least one of the standard rating services. Investments may also be made in securities of the U.S. Treasury and Federal agencies, and in time savings accounts.

Policies regarding investments and marketable securities in the current funds and Retirement and Insurance Fund, as set forth by the Board of Control, authorize the University to invest in U.S. Treasury Obligations; commercial paper rated within the two highest classifications of prime as established by at least one of the standard rating services; or Federal agency securities certificates of deposit issued by FDIC insurance banks, FSLIC insured savings and loan associations, or an NCUA credit union member; or Eurodollar time deposits in Tier 1, 2, or 3 banks.

Deposits: The cash and cash held for investments were as follows as of June 30, (in thousands):

| · |) | 2000 | _ | 1999_ |
|---|----|---------|----|-------|
| Cash | \$ | (1,541) | \$ | 65 |
| Cash held for investments, which earned 5.6% in 2000 and 5.1% in 1999 | | 13,542 | _ | 7,713 |
| | \$ | 12,001 | \$ | 7,238 |

Of the total bank balances, \$47 (in thousands) at June 30, 2000 and \$39 at June 30, 1999 were covered by federal depository insurance. The remaining amounts were uninsured and uncollateralized, as the University is precluded by state law from collateralizing its deposits.

Investments:

In accordance with Governmental Accounting Standards Board's Statement 3, investments are classified into three categories of custodial credit risk. The University's investments are not categorized because they are not evidenced by securities that exist in physical or book entry form. The University's investments in pooled investment funds are uninsured.

The University has pooled investments held by trust companies and invested in a variety of mutual funds managed by investment managers. The net increase in the fair value of investments takes into account all changes in fair value (including purchases and sales) that occurred during the year.

Investment income for the years ended June 30 is comprised of the following (in thousands):

| | 2 | 000 | 1999 | | |
|--|----|------------|------|--------------|--|
| Investment income: Interest Dividends Net increase in the fair | \$ | 999 765 | \$ | 359 1,234 | |
| value of investments | (| 383 | _ | 703 | |
| Total investment income | \$ | 2,147 | \$ | 2,296 | |

The University realized net gains and (losses) of (\$23) (in thousands) and \$589 from the sale of investments in fiscal years 2000 and 1999, respectively. The calculation of realized gains is independent of the calculation of the net increase in the fair value of investments. Realized gains on investments that had been held in more than one fiscal year and sold in the current year may have been recognized as an increase in the fair value of investments reported in the prior year. The unrealized net gains on investments held as of June 30, 2000 and 1999 were \$406 and \$114, respectively.

The returns on investments and marketable securities, excluding the base cash pool reserve for the years ended June 30 were as follows:

| | 2000 | <u> 1999</u> |
|---------------------------|-------|--------------|
| Short term fixed income | - | 3.6% |
| Intermediate fixed income | 4.0% | 3.9% |
| Equity investments | 14.6% | 18.3% |

(3) ACCOUNTS RECEIVABLE AND STUDENT LOANS

Accounts receivable consist of the following as of June 30, (in thousands):

| | 2000 | 1999 |
|--|-----------|-----------|
| Student accounts receivable | \$ 238 | \$ 252 |
| Sponsor accounts receivable | 3,941 | 5,095 |
| State of Michigan appropriation receivable | 9,427 | 8,913 |
| Receivable from State of Michigan for capital projects | 2,276 | |
| Other | 1,350 | 1,272 |
| | 17,232 | 15,532 |
| Less: Allowance for uncollectible amounts | (129) | (129) |
| | \$ 17,103 | \$ 15,403 |

In addition, the University has student loans receivable of \$10,056 (in thousands) and \$9,592 as of June 30, 2000 and 1999, respectively. The related allowance as of June 30, 2000 and 1999 is \$169.

(4) FIXED ASSETS

The following table summarizes, by major class of asset, the recorded costs of fixed assets as of June 30 (in thousands):

| | 2000 | 1999 |
|-----------------------------------|-----------|------------|
| Land | \$ 16,558 | \$ 16,538 |
| Buildings and equipment | 266,261 | 258,686 |
| Construction in progress | 25,489 | 10,215 |
| Total | 308,308 | 285,439 |
| Allowance for depreciation | (136,972) | (130,368) |
| Net property, plant and equipment | \$171,336 | \$ 155,071 |

(5) BONDS AND CAPITAL LEASE OBLIGATION PAYABLE

Bonds

In fiscal year 1998, the University issued \$21 million of General Revenue Variable Rate Demand Bonds ("GRVDB"). Initially priced at 3.45%, the bonds are re-priced weekly. The funds have been and are being used to complete four building projects on campus: the Dow Environmental Sciences and Engineering building, the Rozsa Center for the Performing Arts, the Center for Ecosystem Science, and the Harold Meese Career Center. Additionally, proceeds from the bonds were used to pay off the balances on the University Images loan and the Harold Meese Career Center mortgage. Annual debt service requirements begin in 2015.

The GRVDB issue is collateralized with a \$21 million letter of credit through the Bank of America. The letter would only be used if the bonds become unmarketable.

In fiscal year 1994, the University defeased in substance the 1989 issue of General Revenue Bonds with an issue of General Revenue Refunding Bonds valued at \$3,585 (in thousands). These bonds bear interest at 2.80% to 5.10% and mature at various dates through 2008. As of June 30, 2000 and 1999, \$1,635 and \$1,915 were outstanding.

Capital Lease Obligations

In fiscal year 1999, the University entered into a capital lease agreement of \$600 (in thousands) for the purchase of telecommunication switch equipment. The interest rate is 5.75% with monthly payments of \$9,993 over seven years, beginning in October 1998.

During the year the University entered into several capital lease agreements for the purchase of office equipment.

Annual maturities for all remaining bond and capital lease obligations are as follows for the fiscal year ending June 30 (in thousands):

| 2001 | \$ 11,439 |
|------------|------------------------|
| 2002 | 255 |
| 2003 | 265 |
| 2004 | 263 |
| 2005 | 266 |
| Thereafter | 10,841 |

(6) LINE OF CREDIT

The University has an unused line of credit arrangement with one bank under which it may borrow up to \$10,000,000. It is set at a variable rate of interest, subject to change daily, that is 3.1% less than the Prime Rate. There are no commitment fees and no unusual conditions associated with this line of credit.

(7) POST-EMPLOYMENT BENEFITS

The University offers participation in one of two retirement plans for all qualified employees: the Michigan Public School Employees' Retirement System ("MPSERS") and the Teachers Insurance and Annuities Association College Retirement Equities Fund ("TIAA-CREF").

MPSERS is a non-contributory defined benefit retirement plan through the Michigan State Employees' Retirement System Plan (the "Plan"). Due to State of Michigan House Bill HB4047, University employees hired after December 31, 1995 can no longer participate in this retirement plan, unless they were previously enrolled in the plan at the University or one of the other six universities that are part of MPSERS.

During fiscal year 1997, the University implemented the funding policy changes finalized by MPSERS. An actuarial valuation was prepared for MPSERS that separated the plan into two components — university members and all other members. The valuation determined the university members' portion of plan assets and unfunded actuarial accrued liability ("UAAL"). The new funding policy calls for continued contributions for active members at 6.82% of member payroll. To fund the costs of the UAAL over the next forty years, the University will make additional contributions at a rate that will be determined annually. The fiscal year 1999 rate began at 0.38% of MPSERS defined payroll. The fiscal year 2000 rate was 1.41%. The University is also required to pay a \$135,400 monthly supplemental contribution for retiree health care benefits.

The TIAA-CREF Plan is a defined contribution retirement plan. All employees, who work at least 3/4 time are eligible to participate in the TIAA-CREF plan. For employees hired after December 31, 1995 employer contributions begin two years after date of hire or age 35 whichever is sooner. Employee benefits vest immediately. The University contributes a specified percentage of employee wages and has no liability beyond its own contribution. Contributions and covered payroll under the plans (excluding participants' additional contributions) are summarized as follows (in thousands):

| | Year ended | d June 30, 1999 |
|--|------------|--------------------|
| University contributions to MPSERS | \$ 1,129 | \$1,018 |
| MPSERS retiree health insurance | 1,561 | 1,364 |
| MPSERS unfunded pension costs | 45 | 9 |
| Payroll covered under MPSERS | 14,078 | 14,362 |
| University contributions to TIAA-CREF | 5,121 | 4,684 |
| University contributions to TIAA-CREF supplemental | 459 | - |
| Payroll covered under TIAA-CREF | 40,126 | 37,519 |

The University subsidizes a medical benefits plan for TIAA-CREF eligible University employees who have or will have retired from October 19, 1992 through June 30, 2006. The University recognizes the cost of providing this benefit on a pay-as-you-go basis, which is included in the current funds' expenditures.

During 1997, the Board approved a change in the plan's benefits. During 1999 and 2000, the University matched the participating employee's 2% of salary contribution to the employee's TIAA-CREF retirement annuity.

From 2001 to 2006, the retired employee's contribution for health care benefits will increase from 30% to 100%. The University's subsidy will likewise decrease for fiscal year 2007 and beyond because retired employees will be responsible for 100% of their health care costs. Retirees can pay for their coverage with their annuity.

(8) LIABILITY AND PROPERTY INSURANCE

The University participates in the Michigan Universities Self-Insurance Corporation ("MUSIC"), which provides indemnity to members against auto, comprehensive general liability, errors and omissions, and property losses commonly covered by insurance. MUSIC also provides risk management and loss control services and programs.

Loss coverages are structured on a three layer basis with each member retaining a portion of its losses, MUSIC covering the second layer of losses and commercial carriers covering the third layer. Comprehensive general liability coverage is provided on an occurrence basis; errors and omissions coverage is provided on a claims made basis.

In the event of excess assets, MUSIC will either return the surplus, credit the surplus toward future payments or provide for increased coverages. Recommended reserves for both the corporation and each member are actuarially determined on an annual basis. The corporation will be self-sustaining through member payments and will purchase commercial coverage for claims in excess of established annual limits for each

line of coverage. Members may fund their respective reserves as they deem appropriate.

Premiums are assessed annually for (1) insurance risks retained by MUSIC, (2) costs related to excess coverage and (3) general and administrative expenses.

(9) UNIVERSITY SUPPORT ORGANIZATIONS

The Michigan Tech Fund ("MTF") is an independent nonprofit corporation formed for the exclusive benefit of the University. MTF is a tax exempt support organization engaged in traditional fund raising programs. The accompanying financial statements do not include the net assets of MTF. The most recent audited MTF financial statements are as of June 30, 2000. The net assets of the MTF were \$58.6 million. Included in the net assets above, MTF had an endowment of \$26.7 million. Contributions by the MTF on behalf of the University approximated \$18.8 million.

(10) COMMITMENTS AND CONTINGENCIES

Internally funded reserves and accrued liabilities for employee benefits are included in the Retirement & Insurance Fund. Accrued liabilities are generally based on actuarial valuations and represent the present value of unpaid expected claims, including estimates of claims incurred but not reported.

In the normal course of business, the University is named party to various legal actions. Historically, the University has not experienced significant losses from such actions. After taking into consideration legal counsel's evaluation of pending actions, management believes the resolution of these matters will not have a material adverse effect on the University's financial position or results of operations.

The University has completed construction of its \$44 million Dow Environmental Sciences and Engineering ("ESE") Building. The State Building Authority ("SBA") sold bonds and provided \$30 million for the construction, while the University provided \$14 million. The University executed a deed to the property to the SBA and a lease of the building from the State and the SBA. During the lease term, the SBA will hold title to the facilities, the State will make all annual lease payments to the SBA from general fund appropriations; and the University will pay all operating and maintenance costs of the facilities. At the expiration of the leases, the SBA has agreed to sell each facility to the University for the sum of one dollar.

The University has nearly completed construction of its \$20 million Rozsa Center for the Performing Arts. The State of Michigan has appropriated \$5 million for the Center, and the University will raise \$15 million from private funds. The University has also nearly completed construction of a \$10 million Ecosystem Sciences and Engineering addition. The State of Michigan has appropriated \$7.5 million to the building, and the University will raise \$2.5 million from private funds.

(11) SUPPLEMENTAL INFORMATION

The combining statements of financial condition, the combining statements of revenues, expenditures, transfers and changes in fund balance and the combined statements of cash flows for the years ended June 30, 2000 and 1999 are located on pages 18 - 23.

THIS PAGE INTENTIONALLY BLANK.

Report on Compliance and on Internal Controls Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards PricewaterhouseCoopers LLP 333 Bridge Street, N.W. Suite 505 Grand Rapids MI 49504-5356 Telephone (616) 458 7700 Facsimile (616) 454 6375

To the Board of Control Michigan Technological University:

We have audited the financial statements of Michigan Technological University (the "University") as of and for the year ended June 30, 2000, and have issued our report thereon dated August 11, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Control, University management, the Department of Defense, Office of Naval Research (the cognizant agency) and Federal grantor agencies and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

August 11, 2000

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Controls Over Compliance in Accordance With OMB Circular A-133 PricewaterhouseCoopers LLP 333 Bridge Street, N.W. Suite 505 Grand Rapids MI 49504-5356 Telephone (616) 458 7700 Facsimile (616) 454 6375

To the Board of Control
Michigan Technological University:

Compliance

We have audited the compliance of Michigan Technological University (the "University") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2000. The University's major federal programs are identified in the Summary of Auditors Results section of the accompanying Summary of the Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

In our opinion, Michigan Technological University complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2000.

We did not audit the University's compliance with requirements governing billing, recordkeeping, payment processing, reporting and due diligence functions for the University's Federal Perkins Loans Programs. Those requirements govern functions performed by University Accounting Service, Inc. Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements.

University Accounting Service, Inc.'s compliance with the requirements governing the functions it performs for Michigan Technological University was audited by another auditor, whose report was furnished to us. Based on our review of the other auditor's report, we have determined that all of the compliance requirements included in the Department of Education Audit Guide that are applicable to the University's Federal Perkins Loan Program are addressed either in our report or the report of the other auditor. Based on our review of the other auditor's report, we have determined that it does to contain any findings of noncompliance pertaining to the services that University Accounting Service, Inc. performs for Michigan Technological University.

Internal Control Over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

The internal control structure policies and procedures relating to billing, recordkeeping, payment processing, reporting and due diligence functions for the University's Federal Perkins Loans are performed at University Accounting Service, Inc. For these control structure categories, other auditors obtained an understanding of the design of relevant policies and procedures, determined whether they have been placed in operation and assessed control risk. The other auditor's report has been furnished to us; however, the scope of our work did not extend to these internal control structure policies and procedures established and maintained at University Accounting Service, Inc.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Control, University management, the Department of Defense, Office of Naval Research (the cognizant agency) and Federal grantor agencies and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Michigan Technological University Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2000

Summary from Pages 5-36

| Research and Development | \$ 18,173,658 (a) |
|--------------------------|-------------------|
| Student Financial Aid | 2,504,236 |
| Other Federal Awards | 520,233 (a) |
| Total from Pages 5-36 | 21,198,127 |
| Non-Cach Assistance | |

| Federal Perkins Loans (b) | 1,559,429 |
|-----------------------------|------------|
| Federal Direct Loan Program | 12,026,767 |
| Total Non-Cash Assistance | 13,586,196 |
| | |

Total Expenditures of Federal Awards \$ 34,784,323

- (a) Major Programs
- (b) Loans are measured by the value of the loans made as of June 30, 2000.

See notes to Schedule of Expenditures of Federal Awards.

Michigan Technological University Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2000

1. Basis of Accounting:

The Schedule of Expenditures of Federal Awards is presented on the same basis of accounting used for presentation of the University's financial statements, which is in accordance with generally accepted accounting principles.

2. Catalog of Federal Domestic Assistance (CFDA) Numbers:

All programs with identifiable CFDA numbers have been listed separately. All other programs for which such numbers were unavailable or in the case of NASA and others who do not issue CFDA numbers, the applicable award numbers have been provided.

Michigan Technological University Schedule of Findings and Questioned Costs For the Year Ended June 30, 2000

1. Summary of auditors results:

- a. The type of report issued on the financial statements: unqualified opinion.
- b. Reportable conditions in internal control disclosed by the audit of the financial statements: none reported. Material weaknesses: no.
- c. Noncompliance which is material to the financial statements: no.
- d. Reportable conditions in internal control over major programs: none reported. Material weaknesses: no.
- e. The type of report issued on compliance for major programs: unqualified opinion.
- f. Any audit findings which are required to be reported under Section 510(a) of OMB Circular A-133: no. (Additionally, there were no audit findings for the year ended June 30, 1999.)
- g. Major programs include:

Research and Development

Other Federal Awards

- h. Type A programs include all programs with expenditures which exceed \$1,043,530. Programs which are not Type A programs are Type B programs.
- i. The University did qualify as a low risk auditee as defined by OMB Circular A-133.

2. Findings and questioned costs related to the financial statements: reported in accordance with *Government Auditing Standards*:

The results of our tests did not disclose material findings related to the University's financial statements. However, we noted certain matters that we have discussed with management of the University.
