Bachelor of Science in Geological Engineering
2020-2021

Revised 9/1/2020

This is not an official list of degree requirements. Adjustments may be required due to curriculum changes.

**Year 1**

**Fall**
- MA 1160/1161 Calculus w/ TEDH (4 credits)
- CH 1150 Univ. Chemistry I (3 credits)
- PH 1100 Univ. Physics I (1 credit)
- ENG 1002 (C)
- UN 1015 Composition (3 credits)

**Spring**
- MA 2160 Calculus w/ TEDH II (4 credits)
- CH 1150 Chem Lab I (1 credit)
- GE 2000 Understanding the Earth (3 credits)
- EN 1102 Eng. & Anal. & Design (3 credits)
- Eng. Analysis & Design (3 credits)

**Year 2**

**Fall**
- GE 2010 Intro to GIS (3 credits)
- PH 2200 Univ. Physics II w/ Elec. Mag. (3 credits)
- GE 2010 Intro to Mineralogy (3 credits)
- GE 2310 Intro to Geophysics (3 credits)
- GE 2010 Intro to Geophysics (3 credits)

**Spring**
- MA 2160 Eng. Analysis & Design (3 credits)
- GE 2120 Statics Strength of Materials (4 credits)
- GE 3040 Fundamentals of Geophysics (3 credits)
- GE 3050 Structural Geology (4 credits)
- GE 2310 Intro to Mineralogy (3 credits)

**Year 3**

**Fall**
- GE 3020 Computational Geosciences (3 credits)
- MA 3650 Geology (3 credits)
- MA 3520 Diff. Equations (3 credits)
- MA 3520 Diff. Equations (3 credits)
- MA 3520 Diff. Equations (3 credits)

**Spring**
- GE 4900 Eng. Design Project (3 credits)
- GE 4900 Eng. Design Project (3 credits)
- GE 4900 Eng. Design Project (3 credits)
- MA 3720 Eng. Statistics (3 credits)
- MA 3720 Eng. Statistics (3 credits)

**Year 4**

**Fall**
- GE 3800 Environmetal Monitoring & Measuring Analysis (3 credits)
- MA 2160 Eng. Analysis & Design (3 credits)
- Eng. Analysis & Design (3 credits)
- MA 3650 Geology (3 credits)
- GE 3800 Environmetal Monitoring & Measuring Analysis (3 credits)

**Spring**
- GE 3800 Environmetal Monitoring & Measuring Analysis (3 credits)
- MA 3650 Geology (3 credits)
- MA 3650 Geology (3 credits)
- GE 4900 Eng. Design Project (3 credits)
- MA 3650 Geology (3 credits)
BS in Geological Engineering 2020-2021
(Minimum of 132 Credits)

Geological Engineering Electives
Nine credits of Geological Engineering Electives are required. Prerequisites not normally required must be satisfied by free electives or other courses not specifically listed. With approval of Geological Engineering ABET Coordinator, Geo Eng electives may be substituted with Independent Geological Engineering Research and/or Cooperative Lab.

Enterprise Concentration (12 Credits)
With permission of Geological Engineering ABET Coordinator, enterprise may substitute 6 credits of inter disciplinary project for GE 4900 and GE 4910; 3 credits of required communication, teaming or business must be double counted as Distribution (HASS) credits; and 3 credits of enterprise instructional modules must be substituted for free electives.

Enterprise Minor: Follow concentration, plus take 6 additional credits beyond required degree as per minor requirements.

Second Degree Policy: Candidates for a second degree must meet all the coursework requirements for the major in the second degree with a minimum of 25% of the credit hours required for the degree, beyond the primary degree.

### Geological Engineering Advanced Technical Electives

</tbody>
</table>

NOTE: Special Topics Courses focusing predominantly on applications of engineering to geological engineering systems/projects may also be used with prior approval by a GE Advisor. Additionally, with prior approval from advisor, student may choose other technical electives. Many appropriate senior-level engineering courses are offered in Civil & Environmental Engineering on topics related to those listed above. Adv. Geophysics Elective Courses (see list below) can be taken as Technical Electives for BSGE students.

### Advanced Geophysics Electives

</tbody>
</table>

NOTE: a GE Advisor may also use special Topics Courses focusing predominantly on applications of geophysics in geological engineering projects with prior approval.

### General Education Requirements
(http://www.mtu.edu/registrar/pdfs/core-and-hass-list-17-18-v2.pdf)

#### I. Core Courses (6 Credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Offered</th>
<th>Prerequisite(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>___ UN 1015</td>
<td></td>
<td></td>
</tr>
<tr>
<td>* Or one semester of a 3000 level or higher modern language.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### II. Sophomore Core Courses (6 Credits)

Creative and Critical Thinking (HU/FA)  
Social Responsibility and Ethical Reasoning (SS)

#### III. Hass Course Requirements (12 Credits)

6 credits 3000- or 4000-level  
3 credits required from each of these 3 lists:  
Communication and Composition, Humanities and Fine Arts (HU/FA), and Social and Behavioral Sciences (EC/PSY/SS)  
No more than 3 credits on the Restricted HASS List

A. 6 credits 3000- or 4000-level:  
1.  
2.  
B. 6 credits at any level:  
1.  
2.  

#### IV. Co-curricular activities (3 units)

The co-curricular requirement consists of three semester units of physical education activities. These units are required for graduation, but are not included in the overall degree-credit requirement.

Note: Most physical education activities will last for 7 ½ weeks or ½ semester. A student would need six of these ½-semester units to fulfill the 3-semester unit co-curricular requirement.

### BS Geological Engineering Curriculum Overview (132 Total Credits)

- **General Education, Free & Physical Education Electives**
- **Chemistry**
- **Physics & Geophysics Fundamentals**
- **Calculus, Statistics, Linear Algebra, Differential Equations, & Economics**
- **Physical Geology, Mineralogy, Petrology, Structure & Depositional Systems**
- **Applied Engineering Fundamentals, Geohydrology & Geotechnics**
- **Field Geology & Geophysics**
- **Professional Electives & Capstone Experience**
