

Sustainable Film Series: Issues & Dialogue

3rd Thursday, March 18, 2021 (Virtual)

Time: 7:00-8:30 pm Facilitated Discussion

Cost: FREE. \$5 suggested donation per film is appreciated. [Make donation online.](#)

Location: Virtual. Register [HERE](#) and a zoom link will be emailed to you for each monthly film and/or facilitated discussion.

March 18 – *Brave Blue World* (50 min.) [World Water Day Event](#)

From reuse to energy generation, innovations across 5 continents are explored in this documentary about building a future for sustainable water. (2020)

Discussion Facilitators: Dr. Nancy Langston, Social Sciences, and Dr. Casey Huckins, Biological Sciences

Coming Next:

April 15 – *Plastic Oceans* (102 min.)

In the center of the Pacific Ocean gyre, researchers found more plastic than plankton. The film documents the newest science, proving how plastics, after entering the oceans, break up into small particulates that enter the food chain where they attract toxins like a magnet. The toxins are stored in seafood's fatty tissues, and eventually consumed by us. What can we do? (2016)

Discussion Facilitator: Dr. David Shonnard, Dept. of Chemical Engineering

May 20 – *2040* (92 min.)

What would the world look like in [2040](#) if we actually implement the solutions for climate change that already exist in 2019? It's the premise of a new documentary from Australian filmmaker Damon Gameau. "I'm calling it an exercise in fact-based dreaming," he says in the film. (2020) **Discussion Facilitator:** Jessica Daignault, PhD candidate, Dept. of Civil & Environmental Engineering

Co-sponsored by: Lake Superior Stewardship Initiative ▪ MI Tech Great Lakes Research Center ▪ Keweenaw Land Trust
Keweenaw Unitarian Universalist Fellowship ▪ MTU Dept. of Social Sciences ▪ Sustainable Futures Institute
College of Forest Resources & Environmental Science
