

Sustainable Film Series: Issues & Dialogue

3rd Thursday, May 20, 2021 (Virtual)

Time: 7:00-8:00 pm Facilitated Discussion

Cost: FREE. \$5 suggested donation per film is appreciated. [Make donation online.](#)

Location: Virtual. Register [HERE](#) and a zoom link will be emailed to you for the film and facilitated discussion.

May 20 – 2040 (92 min.)

What would the world look like in 2040 if we *actually* implement the solutions for climate change that already exist in 2019? It's the premise of a new documentary from Australian filmmaker Damon Gameau. "I'm calling it an exercise in fact-based dreaming," he says in the film. (2020)

Discussion Facilitator: Jessica Daignault, PhD candidate, MTU Dept. of Civil & Environmental Engineering.

She is a member of a multi-disciplinary global team investigating methods for reducing household food, energy, and water (FEW) consumption. She contributes to life cycle assessment modeling to quantify the direct & indirect environmental impacts of FEW consumption, including greenhouse gas emissions and water.

Co-sponsored by: Lake Superior Stewardship Initiative ▪ MI Tech Great Lakes Research Center ▪ Keweenaw Land Trust
Keweenaw Unitarian Universalist Fellowship ▪ MTU Dept. of Social Sciences ▪ Sustainable Futures Institute
College of Forest Resources & Environmental Science
