

Using and Reviewing the Electronic TPR Binders

Privacy / Confidentiality Note:

As the materials in these binders are sensitive and confidential, MTU reviewers will only be able to view the document and will be unable to download, print, or copy the files.

Navigating the Document:

Use “Ctrl-F” (Windows) or “Cmd-F” (Mac) to search the virtual binder files.

Search Tips:

- use Ctrl-F again to do a new search
 - trying to select or delete a term already in the search box does not work
- searching for words with apostrophes may not work (e.g., “dean” not “dean’s”).
- searches are not case-sensitive (e.g., both “dean” and “Dean” find the same text)
