## Summary Information

---

<b>Repository</b>	Michigan Technological University Archives and Copper Country Historical Collections
<b>Title</b>	U. S. Navy Seafarer Program/ Project ELF Collection
<b>Date [inclusive]</b>	1968-1997
<b>Extent</b>	17.35 cubic feet; 16 paige boxes and 3 manuscript boxes
<b>Language</b>	English
<b>Mixed materials [Box]</b>	1-19
<b>Abstract</b>	Collection, 1968-1997, of material relating to the Navy's Seafarer Program and Project ELF, compiled by the Michigan Technological University Archives and Copper Country Historical Collections in Houghton, Michigan.

### Preferred Citation

MS-037, U. S. Navy Seafarer Program/ Project ELF Collection, Michigan Technological University Archives and Copper Country Historical Collections, Houghton, Michigan.

## Historical Note

---

Extreme Low Frequency (ELF) radio signals are considered useful for one-way communication to submarines because they penetrate seawater to depths of several hundred feet. ELF is the only available system which, according to the US Navy, will allow continuous contact with submarines while they are at patrol depth and cruising speed. The history of ELF started with Sanguine which was to be a hardened system comprising over a hundred buried transmitters and 6,000 miles of underground cable covering 6,500 square miles in Michigan and Wisconsin. When that wasn't accepted the Navy proposed SEAFARER (Surface ELF Antenna For Addressing REMotely-deployed Receivers) with three above-ground transmitters and 2,400 miles of buried cable occupying 4,700 square miles. Then it was scaled down to Austere ELF with two surface transmitters and 158 miles of cable -- 130 miles of it buried along utility and roadway right-of-ways. The final incarnation was Project ELF, still with two transmitters and only 84 miles of cable hung on utility poles. In 2004 the US Navy ended Project ELF, citing improvements in communication technology that rendered ELF obsolete as well as the changing requirements of the modern Navy.

---

## Collection Scope and Content Summary

---

Collection, 1968-1997, of material relating to the Navy's Seafarer Program and Project ELF, compiled by the Michigan Technological University Archives and Copper Country Historical Collections in Houghton, Michigan. Includes research reports, ecological and biological monitoring reports, Seafarer site surveys, ELF public hearing minutes, environmental impact statements, activist files, correspondence, maps, and other printed ephemera related to the implementation of and protest against the Seafarer Program and Project ELF.

---

## Administrative Information

---

### Publication Information

Michigan Technological University Archives and Copper Country Historical Collections 12/15/2010

### Revision Description

Ryan Welle 8/2/2016

## **Access**

Available for use in the Michigan Technological University Archives and Copper Country Historical Collections.

## **Conditions Governing Use**

Various copying restrictions apply. Guidelines are available from Michigan Technological University Archives & Copper Country Historical Collections.

## **Acquisition**

Material was donated to the Michigan Technological University Archives and Copper Country Historical Collections by Jorma Kalliokoski on February 16, 1988, Ruth Ann Ruehr on May 28, 1991 and August 5, 1991, William Veaser on February 19, 2003, Viola Brown on May 17, 2004, and Darren Patterson on September 27, 2013.

## **Controlled Access Headings**

---

### **Corporate Name(s)**

- ELF Communications Seafarer Program.
- GTE Sylvania Incorporated. Communications Systems Division.
- Project ELF.
- United States. Navy. Electronics Systems Command.

### **Genre(s)**

- Audiocassettes
- Correspondence
- Maps (Documents)
- Minutes
- Reports
- Research (Document genres)
- Surveys (Documents)

### **Geographic Name(s)**

- Clam Lake (Wis. : Lake)
- Republic (Mich.)

**Personal Name(s)**

- Brown, Viola
- Kalliokoski, Jorma
- Patterson, Darren
- Ruehr, Ruth Ann
- Veaser, William

**Subject(s)**

- Communications, Military
- ELF electromagnetic fields
- Project Seafarer
- Sanguine Project
