Date: June 1, 2010

Technical Memorandum Number: 02 (revised)

Re: TAC Meeting

---

The first meeting of our Technical Advisory Council is scheduled for June 16-17, 2010 at the MTRI offices in Ann Arbor MI. This location will allow for easier travel for our council members than traveling to our Houghton campus.

The TAC members are:

Steve Cook – Michigan Department of Transportation

Roger Surdahl – Federal Highway Administration

Krishna Verma – Federal Highway Administration

Amy Trahey – Great Lakes Engineering Group

Carin Roberts-Wollmann – Virginia Tech

Keith Ramsey – Texas Department of Transportation

Michael Johnson – CalTrans

Duane Otter – Transportation Technology Center, Inc.

C. Douglas Couto – Transportation Research Board

Peter Sweatman – University of Michigan Transportation Research Institute

Dennis Kolar – The Road Commission for Oakland County

Dan Johnston – Independent Materials Consultant

Charles Ishee – Florida Department of Transportation

A detailed agenda is currently being developed. The meeting will begin on Wednesday evening with a short social, followed by a full a day of activities on Thursday and adjourning so that council members can travel back that evening. Details of the agenda will be discussed in our upcoming bi-weekly team conference call.
