* A student in research mode who is enrolling for summer must enroll in three (3) research credits at the research mode rate or at least one (1) course credit at the regular rate.

The PI/researcher is responsible for any short-fall in tuition and fees when budgeting in research mode.

Rates in the academic year are based on 9 to 12 credits (depending on the department) and may include estimated lab fees. Rates in the summer semester are based on 3 credits and may also include estimated lab fees. The student is responsible for all charges above the calculated departmental cap (9 to 12 cr. ay, 3 cr. su.). A 5% increase should be applied in future years.
