

The Senate of Michigan Technological University

PROPOSAL 1-77

PROMOTION POLICY

The Senate does reaffirm the principle expressed in the present **Promotion Policy and Procedures** that criteria for promotion should vary from department to department. Such variations are deemed essential to a meaningful and equitable system of promotion by the faculty to which they are to be applied. It is further urged that in the absence of a clear and express prohibition by law, the President of the University proceed with his part in the process of establishing Departmental promotion criteria as called for in the **Promotion Policy and Procedures** approved by the Board of Control, August 25, 1972.

Adopted by Senate: 15 September 1976

Presidential Approval of individual department's promotion criteria: 3 March 1977 and 12 April 1977 for two-year trials.

Current Promotion Policy: See BOC Policy Manual and Faculty Handbook
