

The Senate of Michigan Technological University

PROPOSAL 2-77

PROMOTION POLICY

The Senate requests the President to have prepared, annually, a report for the Senate in the form attached summarizing the contributions of those faculty considered for promotion, both favorably and unfavorably. This report should be prepared by College or School and by rank. In the event any College or School has only one promotion or denial, and publication would constitute a violation of privacy that College or School may upon request of the individual be omitted from the report until two other individuals are included in the same classification.

Tabled by Senate: 15 September 1976
