

# The Senate of Michigan Technological University

---

Superseded

## PROPOSAL 5-78

### PROMOTION POLICY

#### BACKGROUND:

On September 15, 1976, the Senate voted to table Proposal 2-77, Promotion Policy. The Promotional Policy and Professional Standards and Development Committee has revised the proposal.

#### PROPOSAL:

The Senate requests the President of the University to have prepared, annually, a report for the Senate (using the attached form - *Available by Request from the Senate Office*) which summarizes the contributions to the University of those faculty members considered, both favorably and unfavorably, for promotion. This report should be prepared by College or School (except that the Department of Nursing should be kept separate from the rest of the School of Technology) and by rank. In the event any College or School has less than three faculty considered for promotion in any rank, where publication of this data would perhaps constitute a violation of privacy of the individual, that College or School may, upon request of those individuals concerned, omit the completion of the report until such time as a minimum of three individuals are included in the same category.

**Referred to Committee: 7 December 1977**

**Replaced by Proposal 10-78**

**Current Promotion Policy: See BOC Policy Manual and Faculty Handbook**
