

The Senate of Michigan Technological University

PROPOSAL 3-86

GRADE CHANGE POLICY

Believing that any policy concerning grade changes should retain the basic principle that determination of a final grade is the responsibility and prerogative of the instructor, the Senate recommends adoption of the following grade change policy:

The final grade for a course can only be changed under any one of the following circumstances:

1. the student repeats the course
2. the original grade is an I, P, or X
3. the instructor provides written justification for the change and the instructor's department head approves the grade change.

Defeated by Senate: 30 October 1985
