**Proposal background**

The Bylaws of the University Senate identify the various academic, research, and non-academic units that elect representatives to the Senate in Section II. Representation Units. The Board of Control voted to eliminate the Department of Mining and Materials Processing Engineering and merge its faculty and programs into the Department of Geological Engineering and Sciences and the Department of Chemical Engineering. Therefore, the Senate needs to adjust its Bylaws to reflect this organizational reality and remove the Department of Mining and Materials Processing Engineering from its list of representation units.

**Adopted by Senate: September 11, 2002**
