

# The University Senate of Michigan Technological University

**Proposal Defeated by the Senate 19 April 2006**

**PROPOSAL 26-06**  
(Voting Units: Academic)

## **K-DAY RECESS DATE**

Based on the Academic Calendar Guidelines, Keweenaw Day (K-Day) recess is scheduled to begin at noon on the Friday following Labor Day. An instructor who has classes in the afternoon on MFW is then meeting his/her class only once during that week. As a consequence, the students enrolled in these classes are subjected to very little course material during that week.

To distribute the course material more evenly over the 14-week instructional period, it is proposed to move K-Day to the Friday of the week following the week of Labor Day.

**Introduced in Senate: 5 April 2006**

**Defeated by Senate: 19 April 2006**
