Introduction/Rationale

The Van Pelt and Opie Library is an intellectual/academic learning center at the heart of the university. It is comprised of various positions that make up the library’s academic staff. All these positions are currently classified as exempt professional staff. At other university libraries, individuals in these roles are given titles including, but not limited to, “librarian” and “archivist.”

- Teach workshops for students, faculty, and staff
- Develop materials for use in instructional activities
- Provide course-integrated instruction in collaboration with other faculty
- Provide support for and collaborate with other faculty, students, and staff on research
- Plan, organize or conduct professional programs or seminars
- Partake in collaborative research or creative achievements that are shared locally, regionally, nationally or internationally
- Develop and implement improvements to the library's services, collections, methods or processes
- Prepare and submit grant proposals that require substantive research for programs/projects that contribute to the university's and library’s mission and goals
- Hold office, committee assignments, and partake in activities that strengthen the profession and/or university
- Publicly advocate professional library values and goals
- Conduct community service that draws on one's professional training and contributes to the educational mission of the university

It is proposed that the Tenure/Tenure-Track Faculty Handbook, Section 1.5.5, be amended to include the following Non-Tenure-Track Academic rank definitions following the definition Principal Lecturer and preceding the definition Professor of Practice:

**Librarian/Archivist**

This is a beginning professional rank. The base qualification for entry is educational training or experience appropriate to the professional requirements of the position. Professionals at this level are doing journey-level work to build competence within their field. Their work requires guidance and mentoring by supervisors and more experienced colleagues. At this level, individuals exhibit evidence of a beginning record of professional excellence. Librarians and Archivists will have two-year (rolling) renewable appointments. Notice of termination must be given at least one year in advance of the appointment expiration. (See Appendix L)

**Senior Librarian/Senior Archivist**

The basic qualification for this rank is the demonstrated ability to competently fulfill the range of library functions applicable to the individual’s primary assigned area of responsibility. The individual should demonstrate evidence of a continuing record of professional excellence. An individual at this level should demonstrate the ability to work productively independently, make sound decisions, and be an active and productive participant in the betterment of the library and the University. They should accept responsibility for their continued professional growth and development without dependence on a supervisor. Senior Librarians and Senior Archivists will have continuing appointments. Notice of termination must be given at least one year in advance of the appointment expiration. (See Appendix L)

**Principal Librarian/Principal Archivist**

An individual promoted to this rank is one who has received recognition within the University, as well as at regional, state, and national levels as a result of excellence in job performance, professional achievement/scholarship and service. Excellence in job performance must be at the highest level with evidence of leadership and a broad understanding of overall library operations beyond the primary assignment. Principal Librarians and Principal Archivists will have continuing appointments. Notice of termination must be given at least one year in advance of the appointment expiration. (See Appendix L)
