TAKE FUNDAMENTAL COURSES.

- SS 5301: The Policy Process
- SS 5318: Public Management
- SS 5350: Policy Analysis

ENHANCE YOUR EDUCATION.

With our online public policy certificate, you will acquire fundamental skills that complement your previous undergraduate education as well as other graduate certificates and degrees, such as the following:

- Scientific and Technical Communication (BA, BS)
- Sustainability, Science, and Society (BS)
- Applied Statistics
- Artificial Intelligence in Healthcare
- Natural Hazards and Disaster Risk Reduction
- Resilient Water Infrastructure
- Structural Engineering Certificates
- Health Informatics (MS)

APPLY YOUR PUBLIC POLICY SKILLS IN SEVERAL AREAS.

- Government
- Politics
- Non-profit
- Private Sector
- Communication
- Engineering
- Health
- Risk Analysis
- Sustainability Science

Sustainability and public policy go hand in hand. To create a more sustainable future, we need policies in place to ensure we are thinking about future generations to come. I am pursuing the certificate to develop a comprehensive understanding of public policy, which will provide me with the necessary skills to guide me through a future career in sustainability.

*Sidney Mechling,
Student in Sustainability, Science, and Society
(Michigan Tech)*
