

## SS3920 Mining in the Keweenaw

### Online - Summer Track B - 3 credits

---

Explore the history and impact of copper mining in the Keweenaw Peninsula! Using archaeological data and historical sources, we will trace the significance of *miskwaabik* (“red metal”) from early Indigenous surface mining through the industrial operations of the 19<sup>th</sup> and into the late 20<sup>th</sup> century. Topics will include geology of the Keweenaw, the evolution of extractive technology, and the environmental legacy of mining.

---

Fulfills: Essential Ed. Intercultural Competency, LG4, Gen Ed Social & Behav. Sci.
